Revision Awards to Support AIDS-related Malignancies Research Training to Currently Funded AIDS International Training and Research Program Awards (D43) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-TW-08-004
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 01, 2008
Original Closing Date for Applications:	Mar 31, 2008
Current Closing Date for Applications:	Mar 31, 2008
Archive Date:	May 01, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health Education
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$1,750,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.393 -- Cancer Cause and Prevention Research
CFDA Number:	93.394 -- Cancer Detection and Diagnosis Research
CFDA Number:	93.395 -- Cancer Treatment Research
CFDA Number:	93.396 -- Cancer Biology Research
CFDA Number:	93.398 -- Cancer Research Manpower
CFDA Number:	93.399 -- Cancer Control
CFDA Number:	93.989 -- International Research and Research Training
Cost Sharing or Matching Requirement:	No

## Eligible Applicants

### Others

Foreign institutions are not eligible to apply. -Only institutions with currently funded AITRP awards are eligible to apply. -Only Principal investigators of parent grants of currently funded AITRP awards can apply.

## Description

-Purpose. The FIC AIDS International Research and Training Program, in partnership with the NCI Office of AIDS Malignancy Program, is seeking competing revision (formerly called supplement) applications to currently funded AITRP grants at U.S. institutions to complement on-going or to expand research training related to HIV-associated malignancies in low- and middle-income countries. The applications should propose only research training and should be in sites in low-and middle-income countries in which researchers at the AITRP US institutions have existing research collaborations. -Mechanism of Support. This funding opportunity will support revision (formerly competing supplement) applications. to current AITRP (D43) Principal investigators who wish to add capacity to conduct research related to HIV/AIDS and cancer at sites in low-and middle-income countries in which researchers at the AITRP US institutions have existing research collaborations. Applicants may request a project period of up to the length of their existing parent award but not more than three years and a budget for direct costs up to \$138,000 dollars per year with 8% F and A allowed. The anticipated start date will be September 2008. -Funds Available and Anticipated Number of Awards. Funding available \$1.75m from NCI for 11-12 awards.

#### **Administration for Children and Families Standing Announcement for the Ethnic Community Self-Help Program Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	HHS-2008-ACF-ORR-RE-0117
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 01, 2008
Original Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Current Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Archive Date:	Apr 23, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Income Security and Social Services

Category Explanation:  
Expected Number of Awards: 8  
Estimated Total Program Funding: \$600,000  
Award Ceiling: \$200,000  
Award Floor: \$50,000  
CFDA Number: 93.576 -- Refugee and Entrant Assistance  
Discretionary Grants  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

#### **Others**

Public or private nonprofit agencies are eligible applicants. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

### **Description**

The Office of Refugee Resettlement (ORR) invites the submission of applications for funding, on a competitive basis, to connect newcomer refugees and their communities with community resources. The objective of this program is to strengthen organized ethnic communities comprised and representative of refugee populations to ensure ongoing support and services to refugees after initial resettlement. This announcement replaces the Priority Area Three - Ethnic Community Self-Help program included in the Standing Announcement for Services for Recently Arrived Refugees published in the Federal Register on April 23, 2004. The Director will observe March 24, 2008, as the first closing date for applications. Thereafter, the Director will observe February 24, 2009 and February 24, 2010 as the closing dates for applications.

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

Public or private nonprofit agencies are eligible applicants. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

### **Description**

The Office of Refugee Resettlement (ORR) invites the submission of applications for funding, on a competitive basis, for Supplemental Services for Recently Arrived Refugees to provide services to arriving refugees or sudden and unexpected large secondary migration of refugees where communities are not sufficiently prepared in terms of linguistic or culturally appropriate services. This announcement replaces the Priority Area Two - Unanticipated Arrivals program included in the Standing Announcement for Services for Recently Arrived Refugees published in the Federal Register on April 23, 2004. The Director will observe March 24, 2008, as the first closing date for applications. Thereafter, the Director will observe February 24, 2009 and February 24, 2010 as the closing

dates for applications. An applicant may submit more than one application under this announcement.

### **Administration for Children and Families Standing Announcement for the Preferred Communities Program Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	HHS-2008-ACF-ORR-RP-0112
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 01, 2008
Original Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Current Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Archive Date:	Apr 23, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Income Security and Social Services
Category Explanation:	
Expected Number of Awards:	6
Estimated Total Program Funding:	\$600,000
Award Ceiling:	\$300,000
Award Floor:	\$100,000
CFDA Number:	93.576 -- Refugee and Entrant Assistance Discretionary Grants
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

#### **Others**

Eligible applicants are ten national voluntary agencies that currently resettle refugees under a Reception and Placement Cooperative Agreement with the

Department of State or with the Department of Homeland Security. The Preferred Communities program is restricted to these agencies because placements of new arrivals occur under the terms of the cooperative agreements, and no other agencies place new arrivals or participate in determining their resettlement sites. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

## Description

The Office of Refugee Resettlement (ORR) invites the submission of applications for funding, on a competitive basis, for the Preferred Communities program to support the resettlement of newly arrived refugees in Preferred Communities where they have ample opportunities for early employment and sustained economic independence and, to address special populations who need intensive case management, culturally and linguistically appropriate linkages and coordination with other service providers to improve their access to services. This announcement replaces the Priority Area One - Preferred Communities program included in the Standing Announcement for Services for Recently Arrived Refugees published in the Federal Register on April 23, 2004. The Director will observe March 24, 2008, as the first closing date for applications. Thereafter, the Director will observe February 24, 2009 and February 24, 2010 as the closing dates for applications. An applicant may submit more than one application under this announcement.

### **Eligible Applicants**

Independent school districts

Native American tribal governments (Federally recognized)

For profit organizations other than small businesses

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Special district governments

Small businesses

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Native American tribal organizations (other than Federally recognized tribal governments)

County governments

City or township governments

State governments

Private institutions of higher education

Public and State controlled institutions of higher education

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions

of higher education  
Public housing authorities/Indian housing authorities  
Faith-based or community-based organizations can apply.

## Description

-Purpose. This Funding Opportunity Announcement (FOA) issued by National Cancer Institute, National Institutes of Health, encourages the submission of research project grant applications from institutions/ organizations that propose to: (1) improve the measurement of racial /ethnic discrimination in health care delivery systems through improved instrumentation, data collection, and statistical/analytical techniques; (2) to enhance understanding of the influence of racial/ethnic discrimination in health care delivery and its association with disparities in disease incidence, treatment, and outcomes among disadvantaged racial/ethnic minority groups; and (3) to reduce the prevalence of racial/ethnic health disparities through the development of interventions to reduce the influence of racial/ethnic discrimination on health care delivery systems in the United States (U.S.). -Mechanism of Support. This funding opportunity announcement (FOA) will utilize the NIH Research Project Grant (R01) award mechanism and runs in parallel with FOAs of identical scientific scope, PA-08-084 and PA-08-085, which encourage applications under the R21 and R03 mechanisms, respectively. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

## Description

-Purpose. This Funding Opportunity Announcement (FOA) encourages the submission of Small Research Grant (R03) applications from organizations/institutions that propose to: (1) improve the measurement of racial /ethnic discrimination in health care delivery systems through improved instrumentation, data collection, and statistical/analytical techniques; (2) to enhance understanding of the influence of racial/ethnic discrimination in health care delivery and its association with disparities in disease incidence, treatment, and outcomes among disadvantaged racial/ethnic minority groups; and (3) to reduce the prevalence of racial/ethnic health disparities through the development of interventions to reduce the influence of racial/ethnic discrimination on health care delivery systems in the United States. -Mechanism of Support. This Funding Opportunity Announcement (FOA) will utilize the NIH Small Grant (R03) mechanism. This FOA runs in parallel with FOAs of identical scientific scope, PA-08-083 and PA-08-084, which encourage applications under the R01 and R21

grant mechanisms, respectively. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications; therefore, the anticipated number of awards is not known. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award may also vary. The total amount awarded and the number of awards will depend upon the quality, duration, and costs of the applications received.

### **Health Resources & Services Administration Targeted Rural Health Research Grant Program Modification 1**

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-061
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 07, 2008
Original Closing Date for Applications:	Apr 02, 2008
Current Closing Date for Applications:	Apr 02, 2008
Archive Date:	Jun 01, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$750,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.155 -- Rural Health Research Centers
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

Eligibility is open to any public, private, and non-profit organizations, including faith-based and community organizations. The applicants whose proposed principle investigator is new to the field, as well as those with previous rural health services research experience, may apply. The proposed principle investigator however should have at least one publication in a peer-reviewed journal of which he/she is either the author or co-author. Institutions that received a grant award under the Targeted Rural Health Research Grant Program (formerly titled the One-Year Rural Health Research Grant Program in 2005 and 2006) within the last three years (i.e. September 2005, 2006, or 2007) are not eligible for funding under this program for FY 2008. Schools that receive a Rural Health Research Center (RHRC) award in 2008 are ineligible for the Targeted Rural Health Research grant program because these entities will already be receiving research funding for a similar program from HRSA. Separate schools within the same university however, would be eligible. Applicants must be capable of receiving the grant funds directly and must have the capability to manage the project. No "financial intermediary" grant applications will be accepted. Applicants must be able to exercise administrative and program direction over the grant project; must have the administrative and accounting capabilities to manage the grant funds; and must have some permanent research staff at the time the application is submitted.

## **Description**

This grant program supports 18-month Rural Health Research studies on a selected number of topics. Recipients of grants will conduct and disseminate policy-relevant research on issues of national significance in the area of rural health services as they relate to the following topic areas: Rural Health Clinics, Frontier Health Service Delivery, Emergency Medical Services (EMS), Rural Health Leadership, Allied Health Workforce, and Public Health. Please see the "Eligibility Information; Other Limitations; Research Areas" section of the guidance for further details regarding eligible research topics.

Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Faith-based or community-based organizations can apply.

### **Description**

-This FOA is to provide support for research centers that conduct drug abuse and addiction research that have outstanding innovative science and that are multidisciplinary, thematically integrated, synergistic, and are/will be serving as national resource(s) for the NIDA research fields. -There should be evidence that the presence of a center structure is essential for the accomplishment of the research activities. -It is expected that a Center will transform knowledge in the sciences it is studying. Incremental work should not be the focus of Center activities; rather, new and creative directions are required. -Research may occur in any area of NIDA's mission. Each separate project should bear an essential relationship to the integrating theme.

Current Closing Date for Applications:	Apr 01, 2008
Archive Date:	May 01, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$550,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.135 -- Centers for Research and Demonstration for Health Promotion and Disease Prevention
Cost Sharing or Matching Requirement:	No

## Eligible Applicants

### Others

Only applicants who have applied for and have been selected as PRCs under CDC Program Announcement 04003 are eligible to compete for the SIP supplemental funding. Competition is limited to PRCs funded under PA 04003 because they are uniquely positioned to perform, oversee, and coordinate community-based participatory research that promotes the field of prevention research due to their established relationships with community partners. The supplemental projects in this RFA complement ongoing prevention research projects being conducted as part of the CDC Prevention Research Program.

## Description

This FOA builds upon the infrastructure of the Prevention Research Center (PRC) program and solicits applications in the form of cooperative agreements to

support supplemental health promotion and disease prevention research projects that: 1) focus on the major causes of death and disability; 2) improve public health practice within communities; and 3) cultivate effective state and local public health programs. CDC will use the FY08 Special Interest Projects (SIP) mechanism to provide supplemental funding to PRCs to design, test, and disseminate effective prevention research strategies in the areas of epilepsy, aging, and in the built environment to promote public health.

### **National Institutes of Health Health Behavior Change in People with Mental Disorders (R01) Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	PA-08-089
Opportunity Category:	Discretionary
Posted Date:	Feb 04, 2008
Creation Date:	Feb 04, 2008
Original Closing Date for Applications:	May 07, 2011
Current Closing Date for Applications:	May 07, 2011
Archive Date:	Jun 07, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	
Award Floor:	
CFDA Number:	93.242 -- Mental Health Research Grants
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Small businesses  
Special district governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Native American tribal governments (Federally recognized)  
County governments  
Native American tribal organizations (other than Federally recognized tribal governments)

State governments  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Public housing authorities/Indian housing authorities  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Private institutions of higher education  
Independent school districts  
Public and State controlled institutions of higher education  
City or township governments  
For profit organizations other than small businesses

#### **Additional Information on Eligibility:**

Foreign institutions are eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply.

#### **Description**

-Purpose. The National Institute of Mental Health (NIMH) encourages studies on health behavior change related to function, disability, morbidity, and mortality in people with mental disorders. An important goal of this Funding Opportunity Announcement (FOA) is to identify potent, modifiable risk and protective health behavior factors amenable to intervention, and to translate the results of such studies into initial tests of theory-driven prevention and early intervention strategies aimed at improving function and decreasing disability, morbidity, and mortality among people with mental disorders. Risk and protective factors include biological, psychosocial, behavioral, and environmental contributors to health behaviors among people with mental disorders. It is incumbent upon the applicant to demonstrate the public health significance of the study by describing the severity and/or prevalence of the health behaviors, disability, morbidity, or mortality of the populations represented in the topics studied. -Mechanism of Support. This FOA will use the NIH Research Project Grant (R01) award mechanism. Applications of identical scientific scope are solicited also under the NIH Small Research Grant (R03) and the NIMH Clinical Exploratory/Developmental Research Grant (R34) award mechanisms, responding to FOAs PA-06-180 and PA-06-248, respectively. -Funds Available and Anticipated Number of Awards. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the mechanism numbers, quality, duration, and costs of the applications received.

National Institutes of Health  
Developing Centers for Intervention and/or Services Research (DCISR) (P20) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PAR-08-087
Opportunity Category:	Discretionary
Posted Date:	Feb 04, 2008
Creation Date:	Feb 04, 2008
Original Closing Date for Applications:	Jun 24, 2010
Current Closing Date for Applications:	Jun 24, 2010
Archive Date:	Jul 25, 2010
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$1,000,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.242 -- Mental Health Research Grants
Cost Sharing or Matching Requirement:	No

**Eligible Applicants**

City or township governments  
County governments  
Native American tribal governments (Federally recognized)  
Public and State controlled institutions of higher education  
Native American tribal organizations (other than Federally recognized tribal governments)  
Public housing authorities/Indian housing authorities  
Private institutions of higher education  
Special district governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
For profit organizations other than small businesses  
State governments  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Small businesses  
Independent school districts  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:**

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply.

**Description**

-Purpose. The National Institute of Mental Health (NIMH) invites research grant applications to support core infrastructure for conducting intervention and/or services research directly addressing the mission of NIMH, which is to reduce the burden of mental and behavioral disorders through research on mind, brain, and behavior. In particular, this initiative addresses the mission of the Division of Services and Intervention Research (DSIR), as well as that of the NIMH Geriatrics Research Branch. The DSIR supports two main areas of research: a) intervention research to evaluate the effectiveness of pharmacologic, psychosocial, somatic, rehabilitative and combination treatment or preventive interventions on mental and behavior disorders, and b) mental health services research that consists of interdisciplinary investigations of the predictors, processes and outcomes of mental health services, including availability, access and acceptability; organization; decision-making; service delivery, utilization and quality of care; costs, cost-effectiveness and financing of mental health care, and the dissemination and implementation of effective interventions into service systems. The Geriatrics Research Branch supports intervention research relevant to older adults. The purpose of this Funding Opportunity Announcement (FOA) is to establish infrastructure support for groups of investigators to further expand their intervention and/or services research. Applicants under this FOA must have current ongoing research activities relevant to mental health intervention and/or services. This FOA is issued as a companion to the PAR-08-088, Advanced Centers for Intervention and/or Services Research (ACISR), which requires a larger amount of existing research activity than required for this funding opportunity. This FOA is meant to support investigators with active, but still limited research programs, who can benefit from infrastructure support to further develop and expand their research activities. The scope of this initiative is broad and meant to support investigators involved in treatment, prevention, and/or services research. Thus, this center grant mechanism can be utilized for a variety of research activities, such as controlled clinical trials of treatment or preventive interventions, research aimed at optimization and personalization of care, evaluation and improvement of the safety of interventions, research on the dissemination and implementation of evidence-based interventions, evaluation and improvement of mental health services, or economics of mental health services. Along the spectrum from effectiveness to services research, the applicant should indicate and justify the specific focus of the center that is being proposed. Novel methodological and organizational approaches and the creation of multidisciplinary research teams are especially encouraged. Based on the type and stage of development of the research activities being pursued, applicants can propose collaborations between academic investigators and relevant partners and justify support of the collaboration as part of the center.

Health Resources & Services Administration Targeted Rural Health Research Grant  
Program Modification 3

Document Type:  
Funding Opportunity Number:

Modification to Previous Grants Notice  
HRSA-08-061

Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 07, 2008
Original Closing Date for Applications:	Apr 02, 2008
Current Closing Date for Applications:	Apr 02, 2008
Archive Date:	Jun 01, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$750,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.155 -- Rural Health Research Centers
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Eligibility is open to any public, private, and non-profit organizations, including faith-based and community organizations. The applicants whose proposed principle investigator is new to the field, as well as those with previous rural health services research experience, may apply. The proposed principle investigator however should have at least one publication in a peer-reviewed journal of which he/she is either the author or co-author. Institutions that received a grant award under the Targeted Rural Health Research Grant Program (formerly titled the One-Year Rural Health Research Grant Program in 2005 and 2006) within the last three years (i.e. September 2005, 2006, or 2007) are not eligible for funding under this program for FY 2008. Schools that receive a Rural Health Research Center (RHRC) award in 2008 are ineligible for the Targeted Rural Health Research grant program because these entities will already be receiving research funding for a similar program from HRSA. Separate schools within the same university however, would be eligible. Applicants must be capable of receiving the grant funds directly and must have the capability to manage the project. No "financial intermediary" grant applications will be accepted. Applicants must be able to exercise administrative and program direction over the grant project; must have the administrative and accounting capabilities to manage the grant funds; and must have some permanent research staff at the time the application is submitted.

### **Description**

This grant program supports 18-month Rural Health Research studies on a selected number of topics. Recipients of grants will conduct and disseminate policy-relevant research on issues of national significance in the area of rural health services as they relate to the following topic areas: Rural Health Clinics, Frontier Health Service Delivery, Emergency Medical Services (EMS), Rural Health Leadership, Allied Health Workforce, and Public Health. Please see the

"Eligibility Information; Other Limitations; Research Areas" section of the guidance for further details regarding eligible research topics.

National Institutes of Health

Metagenomic Analyses of the Oral Microbiome (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PA-08-090
Opportunity Category:	Discretionary
Posted Date:	Feb 05, 2008
Creation Date:	Feb 05, 2008
Original Closing Date for Applications:	May 07, 2011
Current Closing Date for Applications:	May 07, 2011
Archive Date:	Jun 07, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	
Award Floor:	
CFDA Number:	93.121 -- Oral Diseases and Disorders Research
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Public and State controlled institutions of higher education

Public housing authorities/Indian housing authorities

State governments

Native American tribal governments (Federally recognized)

Private institutions of higher education  
Native American tribal organizations (other than Federally recognized tribal governments)  
For profit organizations other than small businesses  
City or township governments  
Independent school districts  
Special district governments  
County governments  
Small businesses  
Faith-based or community-based organizations can apply.

## **Description**

-Purpose. This Funding Opportunity Announcement (FOA) issued by the National Institute of Dental and Craniofacial Research (NIDCR), National Institutes of Health (NIH), solicits proposals to develop new insight into the role of microbes in human oral health and disease through research on the total oral microbial community (microbiota) using metagenomic approaches built upon recent developments in DNA sequencing, gene assembly, and bioinformatics. The ultimate goal is to completely characterize all microbes and their genes (microbiome) in the oral environment. To this end, we are soliciting projects that will analyze the genomes of both cultivatable and uncultivable bacteria, archaea, viruses, fungi, and parasites. Applicants will be expected to work with state-of-the-science genomic sequencing centers and bioinformatics groups to sequence and annotate all microbes in the oral cavity under conditions of health and disease. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Faith-based or community-based organizations can apply.

## Description

-The NIH ORD, NIAMS, NIDDK, NICHD, NINDS, NIA, NIAAA, NCI, NIDCR and NHLBI invite new and renewal cooperative agreement applications to continue the Rare Diseases Clinical Research Network (RDCRN). The Network has two main components: Rare Diseases Clinical Research Consortia (RDCRC) and a Data Management and Coordinating Center (DMCC) (formerly known as Data Technology Coordinating Center, DTCC). The purpose of this Funding Opportunity Announcement (FOA) is to invite new and renewal cooperative agreement applications for RDCRCs that individually focus on a subset of related rare diseases. A separate FOA has been published to invite new and renewal cooperative agreement applications for DMCC at <http://grants.nih.gov/grants/guide/rfa-files/RFA-OD-08-002.html>. -The purpose of the Network is to facilitate clinical research in rare diseases through support for 1) collaborative clinical research in rare diseases, including longitudinal studies of individuals with rare diseases, clinical studies and/or phase I , II and II/III trials; 2) training of clinical investigators in rare diseases research; 3) pilot and demonstration projects 4) a test bed for distributed clinical data management that incorporates novel approaches and technologies for data management, data mining, and data sharing across rare diseases, data types, and platforms; and 5) access to information related to rare diseases for basic and clinical researchers, academic and practicing physicians, patients, and the lay public. Items 1-3 and 5 must be addressed in RDCRC application and item 4 must be addressed in DMCC application (<http://grants.nih.gov/grants/guide/rfa-files/RFA-OD-08-002.html>)

### **Description**

-Purpose. The NIH ORD and NINDS invite new and renewal cooperative agreement applications to continue the Data Management and Coordinating Center for the Rare Diseases Clinical Research Network (RDCRN). The Network has two main components: Rare Diseases Clinical Research Consortia (RDCRCs) and a Data Management and Coordinating Center (DMCC) (formerly known as Data Technology Coordinating Center, DTCC). The purpose of this Funding Opportunity Announcement (FOA) is to invite new and renewal cooperative agreement applications for the DMCC, which supports the RDCRN. A separate FOA has been published to invite new and renewal cooperative agreement applications for RDCRCs at <http://grants.nih.gov/grants/guide/rfa->

files/RFA-OD-08-001.html. The purpose of the Network is to facilitate clinical research in rare diseases through support for 1) collaborative clinical research in rare diseases, including longitudinal studies of individuals with rare diseases, clinical studies and/or phase I , II and II/III trials; 2) training of clinical investigators in rare diseases research; 3) pilot and demonstration projects; 4) a test bed for distributed clinical data management that incorporates novel approaches and technologies for data management, data mining, and data sharing across rare diseases, data types, and platforms; and 5) access to information related to rare diseases for basic and clinical researchers, academic and practicing physicians, patients, and the lay public. The DMCC (U54) cooperative agreement application will focus on issues relevant to item 4) and 5). -Mechanism of Support. This FOA will use the NIH U54 cooperative agreement award mechanism. Responsibility for the planning, direction, and execution of the proposed projects will be solely that of the applicant. The total project period for an application submitted in response to this FOA may not exceed 5 years. - Funds Available and Anticipated Number of Awards. The NIH ORD intends to commit approximately \$875,000 in total cost (i.e direct cost plus Facilities and Administrative (F and A) costs) per year to fund one DMCC, which will support at least seven RDCRC. ORD and the participating institutes and centers (ICs) intend to fund approximately seven RDCRCs in response to the companion RFA-OD-08-001. Should the size of Network increase to approximately 10 consortia, the NIH ORD intends to commit \$1.25 M per year to fund one DMCC.

CFDA Number: 93.173 -- Research Related to Deafness and Communication Disorders

CFDA Number: 93.838 -- Lung Diseases Research

Cost Sharing or Matching Requirement: No

## **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Special district governments

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

For profit organizations other than small businesses

Native American tribal organizations (other than Federally recognized tribal governments)

Small businesses

State governments

County governments

Public housing authorities/Indian housing authorities

Native American tribal governments (Federally recognized)

Public and State controlled institutions of higher education

Independent school districts

City or township governments

Private institutions of higher education

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Faith-based or community-based organizations can apply.

## **Description**

-Purpose. This Funding Opportunity Announcement (FOA) issued by the National Institute of Dental and Craniofacial Research (NIDCR), the National Heart, Lung, and Blood Institute (NHLBI), and the National Institute on Deafness and Other Communication Disorders (NIDCD), National Institutes of Health (NIH), solicits research grant applications to conduct studies designed to develop innovative approaches that would contribute to our understanding of the mechanisms that impact on the virulence of infections involving two or more microorganisms or strains of microorganisms (with the exception of HIV). -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) mechanism that runs in parallel with a FOA of identical scientific scope, PA-08-092, and encourages applications under the R21 mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Public and State controlled institutions of higher education

## Description

-The National Institute of Mental Health (NIMH) announces its support of the NIMH Career Opportunities in Research (NIMH COR) Honors Undergraduate Research Training Grant (T34) program. The goal of the program is to provide support for pre-baccalaureate research training to help ensure that a diverse and highly trained workforce is available to assume leadership roles related to the Nation's biomedical, neuroscience, behavioral and clinical research agenda for mental health. The specific objectives are to: (a) increase the number of well-prepared undergraduate students from diverse backgrounds who complete a research training program leading to a research doctorate (Ph.D., M.D./Ph.D. or equivalent) in biomedical, neuroscience, behavioral, or clinical sciences relevant to mental health research; and (b) develop and strengthen the undergraduate research training curricula with relevance to mental health. -This program utilizes the T34 Ruth L. Kirschstein National Research Service Award (NRSA) funding mechanism. -Because the nature and scope of the proposed research training will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the number, quality, duration, and costs of the applications received.

Department of Health and Human Services  
Substance Abuse & Mental Health Services Administration  
Grants to Expand Substance Abuse Treatment Capacity for Drug Courts Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	TI-08-007
Opportunity Category:	Discretionary
Posted Date:	Feb 05, 2008
Creation Date:	Feb 11, 2008
Original Closing Date for Applications:	Apr 10, 2008
Current Closing Date for Applications:	Apr 10, 2008
Archive Date:	May 10, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	18
Estimated Total Program Funding:	\$5,400,000
Award Ceiling:	\$300,000
Award Floor:	\$0
CFDA Number:	93.243 -- Substance Abuse and Mental Health Services Projects of Regional and National

## Significance

Cost Sharing or Matching Requirement: No

## Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

## Additional Information on Eligibility:

In the Treatment Drug Court model, judges have the authority to assign clients to treatment facilities/programs as they deem appropriate. In other words, the drug court judge, not the treatment program, is the catalyst for enrollment into community-based treatment programming. Because the Treatment Drug Court judge is the pivotal figure and not the public and private nonprofit organization, SAMHSA/CSAT is restricting eligibility to existing individual adult treatment drug courts that have demonstrated relationships/agreements with existing community-based substance abuse treatment providers in order to create the necessary networks to successfully implement these grants. Furthermore, it is the intention of this program to provide funding to enhance and/or expand treatment and recovery support for individual drug courts. Some State or County Court integrated/consolidated systems require that individual drug courts apply through the State or County. In those cases, if the State or County is the applicant, it will be the award recipient and the entity responsible for satisfying the grant requirements. This approach is permitted, but all grant funds awarded must be dedicated to the individual drug court with the exception of a small set aside, not to exceed two percent of the total award, that is permissible to cover the cost of administration and oversight of the grant. This grant program is not intended to provide start-up funds to create new treatment drug courts. Therefore, it is essential that applicant drug courts have been operational for at least one year at the time of application. Operational is defined as a judge being designated as a "drug court" judge with a "drug court" docket of cases and seeing defendants in "drug court" on a regular and recurring basis for at least one year prior to the submission of the grant application. By signing the cover page (SF 424 v2) of the application, the authorized representative of the applicant organization is certifying that the Treatment Drug Court for which grant funds are requested is operational as defined above.

## Description

The Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment is accepting applications for fiscal year (FY) 2008 Grants to Expand Substance Abuse Treatment in Adult Drug Courts. The purpose of the program is to expand and/or enhance substance abuse treatment services in "problem solving" courts which use the treatment drug court model in order to provide alcohol and drug treatment, recovery support services supporting substance abuse treatment, screening, assessment, case management, and program coordination to adult defendants/offenders. Priority for the use of the funding should be given to addressing gaps in the continuum of

treatment. Grantees will be expected to provide a coordinated, multi-system approach designed to combine the sanctioning power of treatment drug courts with effective treatment services to break the cycle of criminal behavior, alcohol and/or drug use, and incarceration or other penalties. Treatment Drug Courts use regular appearances of the client before a judge (who is part of, or guided by, a team of relevant professionals) in order to monitor compliance with court ordered conditions and substance abuse treatment. SAMHSA intends that its services grants result in the delivery of services as soon as possible after award. Service delivery should begin by the 4th month of the project at the latest. Treatment Drug Court grants are authorized under Section 509 of the Public Health Service Act, as amended. This announcement addresses Healthy People 2010 focus area 26 (Substance Abuse) of the Public Health Service Act.

Mental Health Dissertation Research Grant To Increase Diversity (R36) Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	PAR-06-217
Opportunity Category:	Discretionary
Posted Date:	Mar 03, 2006
Creation Date:	Feb 12, 2008
Original Closing Date for Applications:	Multiple Receipt Dates - See Link to Full Announcement for details.
Current Closing Date for Applications:	Jan 07, 2009 Multiple Receipt Dates - See Link to Full Announcement for details.
Archive Date:	Feb 07, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$35,000
Award Floor:	
CFDA Number:	93.242 -- Mental Health Research Grants
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Public and State controlled institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Private institutions of higher education

### **Additional Information on Eligibility:**

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government are eligible to apply. You may submit (an) application(s) if your organization has any of the following characteristics: Public or private institutions, such as universities, colleges, hospitals, and laboratories Eligible agencies of the Federal Government Domestic Institutions In addition, eligible institutions must have an accredited doctoral degree-granting program in the candidate s area of study.

### **Description**

The purpose of this funding opportunity is to increase the diversity of the mental health research workforce. It will enable qualified doctoral candidates to pursue research careers in any area relevant to the research mission of the National Institute of Mental Health (NIMH). These awards are available to US citizens or permanent residents who are predoctoral students advanced to candidacy in accredited research doctoral programs in the United States (including Puerto Rico and other U.S. territories or possessions). The total amount to be awarded and the number of anticipated awards will depend upon the quality, duration, and costs of the applications received as determined by the peer review process, available funds, and program priorities. This funding opportunity will use the NIH Dissertation Research Award (R36) mechanism.

Archive Date: Apr 16, 2008

Funding Instrument Type: Grant

Category of Funding Activity: Health

Category Explanation:

Expected Number of Awards:

Estimated Total Program Funding:

Award Ceiling: \$200,000

Award Floor:

CFDA Number: 93.121 -- Oral Diseases and Disorders Research

CFDA Number: 93.173 -- Research Related to Deafness and Communication Disorders

CFDA Number: 93.286 -- Discovery and Applied Research

CFDA Number: 93.287 -- Bioengineering Research

CFDA Number: 93.837 -- Heart and Vascular Diseases Research

Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Private institutions of higher education

Independent school districts

County governments

For profit organizations other than small businesses

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Special district governments

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

State governments

Public housing authorities/Indian housing authorities

Native American tribal governments (Federally recognized)

Native American tribal organizations (other than Federally recognized tribal governments)

Public and State controlled institutions of higher education

City or township governments

### **Description**

The NIH Institutes listed above invite research grant applications to conduct studies designed to develop innovative approaches that would contribute to our understanding of the mechanisms that impact on the virulence of infections

involving two or more microorganisms or strains of microorganisms (with the exception of HIV).

Category Explanation:	
Expected Number of Awards:	15
Estimated Total Program Funding:	\$1,500,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.918 -- Grants to Provide Outpatient Early Intervention Services with Respect to HIV Disease
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Eligible applicants must be public or private non-profit agencies. These may include by are not limited to: Consolidated Health Center Programs (Community Health Centers, Migrant Health Centers, Health Care for the Homeless, Public Housing Primary Care and Healthy Schools, Healthy Communities) receiving support under Section 330 of the PHS Act; Family planning agencies under Section 1001 of the PHS Act, other than States; Comprehensive Hemophilia Diagnostic and Treatment Centers; Federally qualified health centers as described in Title XIX, Section 1905 of the Social Security Act; Nonprofit private entities that currently provide comprehensive primary care services to populations at risk of HIV disease; Local health departments; University/Medical

Center affiliated clinics. Faith-based and community-based organizations are eligible to apply. Eligible applicants must be public or private non-profit agencies. These may include but are not limited to: Consolidated Health Center Programs (Community Health Centers, Migrant Health Centers, Health Care for the Homeless, Public Housing Primary Care and Healthy Schools, Healthy Communities) receiving support under Section 330 of the PHS Act; Family planning agencies under Section 1001 of the PHS Act, other than States; Comprehensive Hemophilia Diagnostic and Treatment Centers; Federally qualified health centers as described in Title XIX, Section 1905 of the Social Security Act; Nonprofit private entities that currently provide comprehensive primary care services to populations at risk of HIV disease; Local health departments; University/Medical Center affiliated clinics. Faith-based and community-based organizations are eligible to apply.

## Description

The purpose of this grant program is to support eligible entities in their efforts to strengthen their organizational infrastructure and enhance their capacity to develop, enhance or expand high quality HIV primary health care services in (1) rural or (2) urban underserved areas and (3) communities of color. The applicant must propose capacity building activities that develop, enhance, or expand a comprehensive continuum of outpatient HIV primary care services in their community through the applicant agency. Capacity building grant funds are not intended for long-term activities.

Category Explanation:	

Expected Number of Awards: 4  
Estimated Total Program Funding: \$500,000  
Award Ceiling:  
Award Floor:  
CFDA Number: 93.224 -- Consolidated Health Centers  
(Community Health Centers, Migrant Health  
Centers, Health Care for the Homeless, Public  
Housing Primary Care, and School Based  
Health Centers)  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Public and non-profit organizations including faith based and community based organization from one of the following categories: a health center, as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a managed care network or plan, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years; or, a health center as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a practice management network, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years Public and non-profit organizations including faith based and community based organization from one of the following categories: a health center, as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a managed care network or plan, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years; or, a health center as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a practice management network, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years

### **Description**

To support health centers in structured planning activities that will prepare them to adopt Electronic Health Records (EHR) or other HIT innovations. Planning activities for EHR adoption may include readiness assessment, workflow analysis, due diligence in selecting vendor, business planning, determining specific network HIT functions. Planning activities for other HIT initiatives may include marketplace assessment, initial stages of collaboration with partners, and business planning. Applicants will need to describe the outcome of the grant and must demonstrate progress after the first year that will lead to completing the goal after the second year. For example, if the applicant proposes to use the funds to plan for implementation of an EHR, then at the end of 2 years, grantees will have a solid plan to adopt EHR along with indicators of success.

Current Closing Date for Applications:	Apr 30, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Archive Date:	May 30, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Income Security and Social Services
Category Explanation:	
Expected Number of Awards:	15
Estimated Total Program Funding:	\$23,000,000
Award Ceiling:	\$6,000,000
Award Floor:	\$0
CFDA Number:	93.583 -- Refugee and Entrant Assistance Wilson/Fish Program
Cost Sharing or Matching Requirement:	No

### Eligible Applicants

According to Section 412 (e) of the INA [Cash Assistance and Medical Assistance to Refugees], "The (ORR) Director is authorized to provide assistance, reimbursement to States, and grants to, and contracts with, public or private nonprofit agencies..." Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

### Description

The Office of Refugee Resettlement (ORR) announces that applications will be accepted from public and private non-profit organizations, including faith-based and community organizations, under a standing announcement for Wilson/Fish projects that proposes alternative approaches to providing integrated services and cash assistance to refugees. Projects will be accepted under either of two categories: (1) Projects to establish or maintain a refugee program in a State where the State is not participating in the refugee program or is withdrawing from the refugee program or a portion of the program; and (2) projects to provide an alternative to the existing system of assistance and services to refugees. Funding is available to these projects under the "Wilson/Fish" authority. This Standing announcement replaces the HHS-2004-ACF-ORR-RW-0005, which was published in the Federal Register of April 5, 2004 (69 Fed. Reg. 17692-01).

CFDA Number:	93.276 -- Drug-Free Communities Support Program Grants
Cost Sharing or Matching Requirement:	Yes

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

All coalitions applying for a DFC Mentoring grant must meet the following eligibility criteria or the application will not be considered for funding. (We will consider the information provided in the sections of the application identified below in order to determine whether or not an individual applicant meets the eligibility criteria). DFC MENTORING GRANT ELIGIBILITY REQUIREMENTS HOW AND WHERE TO DOCUMENT 1. The coalition must be a legally eligible entity. The coalition must be an organization legally eligible to apply for a grant or must make arrangements with an organization that will apply for the grant on behalf of the coalition and serve as the legal and fiscal agent for the grant. That is, a single organization (i.e., the coalition or its fiscal agent) must be the legal applicant, the recipient of the award, and the entity legally responsible for satisfying the grant requirements. Legal/fiscal agents acting on behalf of a coalition may be domestic public or private non-profit entities, such as State, local, or tribal governments; public or private universities and colleges; professional associations; voluntary organizations, self-help groups; consumer and provider services-oriented constituency groups; community and faith-based organizations; and tribal organizations. 1 How: A coalition serving as its own Fiscal Agent should simply state they are a legally eligible entity. If a coalition is NOT acting as its own Fiscal Agent, the applicant must include a completed Memorandum of Understanding (MOU) between the coalition and the Fiscal Agent. \*see Sample MOU-Coalition & Fiscal Agent (Attachment 7). \* for further information and guidance on the use of a Fiscal Agent, see Attachment 6. Where: Part V, Section G, Documentation for Eligibility Requirements. 2. The mentor coalition must be in receipt of a "regular" DFC grant during the period of the mentoring relationship. (In order to qualify for a DFC Mentoring grant, you must have a continuation award through the "regular" DFC grant process or, if you are a coalition applying for a new "regular" DFC grant, you can be considered only if you receive the "regular" DFC award.) 2. In Section I of "Supporting Documentation", applicants must provide the date the mentor coalition first received a "regular" DFC grant. Applicants also must identify how many years of "regular" DFC funding the mentor coalition has received. 3. The mentor coalition must have achieved, through its own efforts, measurable results in the prevention of substance abuse among youth. 3. In Section C of the Project Narrative. 4. The mentor coalition must have at least one staff person, volunteer or member willing to serve as a mentor to the mentee coalition in the prevention of substance abuse. 4. In Section E of the Project Narrative, applicants must provide both a list of individuals from the mentor coalition (staff/members/volunteers) who will participate in the mentoring project and a description of the role of each individual. 5. The mentor coalition must propose to serve as a mentor to a coalition or coalitions that: a) are not in receipt of a "regular" DFC award during the period of the mentoring relationship AND, b) have never before received a "regular" DFC grant award. 5. In Section I, applicants must disclose whether the mentee coalition has submitted an application for a "regular" FY 2008 DFC award. 6. The mentor coalition must demonstrate that there is a willingness on the part of the mentee coalition and its

target community to actively participate in the mentee process. 6. In Section J of "Supporting Documentation" applicants are asked to submit Memoranda of Understanding between the mentor coalition and mentee coalition and/or community.

## **Description**

The Executive Office of the President, Office of National Drug Control Policy (ONDCP), and the Department of Health and Human Services (HHS), Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP) announce the availability of funds for new FY 2008 Drug Free Communities Mentoring Program (DFC Mentoring) grants. The purpose of the DFC Mentoring Program is to provide grant funds to existing DFC grantees so that they may serve as mentors to newly-formed and/or developing coalitions that have never received a DFC grant. Through the support of DFC mentoring funds, mentor coalitions are expected to share their expertise with non-grantee coalitions (mentees) and enable them to successfully compete for a "regular" DFC grant. DFC Mentoring grants are designed to support the overall goals of the Drug Free Communities Program, a collaborative initiative led by ONDCP in partnership with SAMHSA. The DFC Program has two primary goals: Establish and strengthen collaboration among communities, private nonprofit agencies, and Federal, State, local and tribal governments to support the efforts of community coalitions to prevent and reduce substance abuse among youth. Reduce substance abuse among youth and, over time, among adults by addressing the factors in a community that increase the risk of substance abuse and promoting the factors that minimize the risk of substance abuse. (Substances include, but are not limited to, narcotics, depressants, stimulants, hallucinogens, cannabis, inhalants, alcohol and tobacco, where their use is prohibited by Federal, State, or local law.) Note: DFC projects must focus on multiple drugs of abuse. When the term "drug" or "substance" is used in this funding announcement, it is intended to include all of the above drugs. The Drug-Free Communities Program (DFC) was created by the Drug Free Communities Act, 1997 (Public Law 105-20). DFC Mentoring grants were established as a component of the DFC Program when the DFC Program was reauthorized on December 14, 2001, through P.L. 107-82, 115 Stat. 814 (2001). Congress again demonstrated its support for the DFC Mentoring effort when the DFC Program and the DFC Mentoring Program were reauthorized in December of 2006. The coalitions that have been awarded DFC Mentoring grants represent a cross-section of communities from every region in the nation. In FY 2007, ONDCP awarded 19 new DFC mentoring grants and 15 mentoring continuation grants. More information on DFC and DFC Mentoring grants can be found on the DFC Web site ( [www.ondcp.gov/dfc](http://www.ondcp.gov/dfc) ).

### Eligible Applicants

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

### Additional Information on Eligibility:

Community-based organizations funded under CDC Program Announcement 04064 not currently receiving supplemental funding are eligible to apply for this opportunity. See full funding opportunity announcement for details.

## Description

Secretary's Forecast Summary CDC-RFA-PS08-804 CDC's Procurement and Grants Office has published a program announcement entitled, "Outcome Monitoring of the SISTA (Sisters Informing Sisters about Topics on AIDS) Project to Prevent HIV Infection Delivered by Community Based Organizations Funded to Conduct HIV Prevention through CDC Program Announcement 04064." Approximately \$900,000 will be available in fiscal year 2008 to fund approximately 9 awards to community-based organizations funded under CDC PA 04064 that are not currently receiving supplements. The purpose of the program is to develop and implement HIV prevention programs. For complete program details, please see the full announcement on the CDC website at <http://www.cdc.gov/od/pgo/funding/FOAs.htm>. The estimated funding date is prior to June 1, 2008.

Award Ceiling:	\$400,000
Award Floor:	\$0
CFDA Number:	93.243 -- Substance Abuse and Mental Health Services Projects of Regional and National Significance
Cost Sharing or Matching Requirement:	No

## **Eligible Applicants**

Eligibility for Category 1 (AI/AN/AA/PI) is restricted to federally recognized Tribes, State recognized Tribes, urban Indian organizations, tribal organizations, and Asian American/Pacific Islander organizations, including Native Hawaiian organizations, in recognition of their responsibility for, and interest in, providing for the needs of their citizens, and because the success of the program will depend upon their authority and ability to broadly coordinate a variety of resources. (See Appendix L- Glossary). Eligible applicants for Category 2 (Local ROSC) are domestic public and private nonprofit entities. For example, State and local governments, federally recognized American Indian/Alaska Native Tribes and tribal organizations, urban Indian organizations, public or private universities and colleges; and community, faith-based and recovery community organizations may apply. Tribal organization means the recognized body of any AI/AN Tribe; any legally established organization of American Indians/Alaska Natives which is controlled, sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of American Indians/Alaska Natives in all phases of its activities. Consortia of tribal organizations are eligible to apply, but each participating entity must indicate its approval. The statutory authority for this program prohibits grants to for-profit agencies. Funding is not designed to meet Statewide treatment needs, but to meet the needs of individual communities in cities, towns, counties, and multi-county partnerships. Therefore, States that apply must identify a specific city, town, county or multi-county partnership that will be the targeted geographic area of need.

## **Description**

The Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment is accepting applications for fiscal year (FY) 2008 Targeted Capacity Expansion grants. This program is designed to address gaps in treatment capacity by supporting rapid and strategic responses to demands for substance abuse (including alcohol and drug) treatment services in communities with serious, emerging drug problems as well as communities with innovative solutions to unmet needs. The purpose of this program is to expand and or/enhance the community's ability to provide a comprehensive, integrated, and community-based response to a targeted, well-documented substance abuse treatment capacity problem and/or improve the quality and intensity of services. The Targeted Capacity Expansion (TCE) grant program is one of SAMHSA's services grant programs. SAMHSA's services grants are designed to address gaps in substance abuse services and/or to increase the ability of States, localities, Tribes, urban Indian centers and/or tribal organizations to help specific populations or geographic areas with serious, emerging substance abuse problems. For example, a community might seek a Targeted Capacity Expansion grant to add state-of-the-art treatment approaches or new services to address emerging trends or unmet needs (e.g., intensive case management and referral to services to address related HIV, tuberculosis, hepatitis B and C, and other primary health care needs of substance abusing clients) and other co-occurring issues such as gambling. An applicant may also propose to sustain recovery

efforts by offering a comprehensive menu of services that include recovery support services. SAMHSA/CSAT intends to fund projects for treatment services in two categories in FY 2008: Category 1- American Indian/Alaska Native and Asian American/Pacific Islander Populations To meet the disproportionate substance abuse treatment needs of smaller native communities, this category specifically identifies American Indian/Alaska Natives (AI/AN) and Asian American/Pacific Islanders (AA/PI), including Native Hawaiians, as native populations to receive expanded and/or enhanced treatment services under this program. According to the 2006 National Household Survey on Drug Use and Health, among persons aged 12 or older, the highest rate of current illicit drug use was among American Indians or Alaska Natives (13.7 percent). Furthermore, among youths aged 12 to 17 in 2006, the rate of current illicit drug use among American Indians or Alaska Natives was about twice the overall rate among youths (18.7 percent vs. 9.8 percent, respectively). Through the TCE program, SAMHSA seeks to strengthen outreach to tribal organizations and increase participation in the TCE program. Category 2- Local Recovery-Oriented Systems of Care To develop responses at the local level that will enhance substance use disorders services and promote recovery, this category focuses on providing support for local organizations (e.g., grassroots, faith-based, community-based and recovery community organizations) that can link services critical to the target population and that demonstrate the principles of Recovery- Oriented Systems of Care (ROSCs). For more information on Recovery-Oriented Systems of Care, see Appendix I of the RFA. SAMHSA intends that its services grants result in the delivery of services as soon as possible after award. Service delivery should begin by the 4th month of the project at the latest. Applicants for the AI/AN/AA/PI category may negotiate the service delivery start date with their TCE project officer. TCE grants are authorized under Section 509 of the Public Health Service Act, as amended. This announcement addresses Healthy People 2010 focus area 26 (Substance Abuse).

National Institutes of Health  
Methods for Prevention Packages Program (MP3) (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-AI-08-019
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	Jul 15, 2008
Current Closing Date for Applications:	Jul 15, 2008
Archive Date:	Aug 15, 2008

Funding Instrument Type: Grant  
Category of Funding Activity: Health  
Category Explanation:  
Expected Number of Awards:  
Estimated Total Program Funding: \$4,500,000  
Award Ceiling:  
Award Floor:  
CFDA Number: 93.242 -- Mental Health Research Grants  
CFDA Number: 93.855 -- Allergy, Immunology and Transplantation Research  
CFDA Number: 93.856 -- Microbiology and Infectious Diseases Research  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Small businesses  
For profit organizations other than small businesses  
County governments  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Native American tribal organizations (other than Federally recognized tribal governments)  
City or township governments  
Native American tribal governments (Federally recognized)  
Public housing authorities/Indian housing authorities  
Private institutions of higher education  
Special district governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Public and State controlled institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
State governments  
Independent school districts  
Faith-based or community-based organizations can apply.

### **Description**

Purpose. The National Institute of Allergy and Infectious Diseases and the National Institute of Mental Health invite applications for multidisciplinary research programs that (1) devise optimal HIV prevention packages (combination interventions) for specific populations, (2) design clinical studies to rigorously examine the safety and efficacy of these packages in the target population, and (3) perform pilot studies to demonstrate that the proposed prevention package is acceptable to the target population and the study design is appropriate and feasible. -Mechanism of Support. This FOA will utilize the NIH Research Project

Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. The NIAID intends to award up to \$4 million in FY 2009 to fund 4-6 applications submitted in response to this FOA. NIMH is also providing \$500,000 in support of this FOA. Applicants may request a project period of up to four years and a budget of up to \$600,000 in direct costs in each year, plus applicable facilities and administrative costs. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

### National Institutes of Health Molecular Phenotypes for Lung Diseases (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-HL-08-006
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	May 05, 2008
Current Closing Date for Applications:	May 05, 2008
Archive Date:	Jun 05, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$16,000,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.838 -- Lung Diseases Research
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
State governments  
Native American tribal organizations (other than Federally recognized tribal governments)  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Private institutions of higher education  
City or township governments  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Small businesses  
Special district governments  
Public and State controlled institutions of higher education  
County governments  
Native American tribal governments (Federally recognized)  
For profit organizations other than small businesses  
Public housing authorities/Indian housing authorities  
Independent school districts  
Faith-based or community-based organizations can apply.

## Description

-Purpose. The National Heart, Lung, and Blood Institute (NHLBI) solicits grant applications under this Funding Opportunity Announcement (FOA) to stimulate research that will define or subcategorize human lung diseases at a molecular level enabling early diagnosis, prognosis, and personalized treatment of these diseases. The measurement of whole-genome gene expression at the RNA level will be the primary approach to systematically collect molecular phenotyping data for common and rare lung diseases. In addition, this FOA encourages the integration of data from other omics approaches (e.g., genomics, epigenomics, etc.) to reinforce or validate findings from RNA expression. The data generated from this program will be made available to the broad scientific community. - Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. Contingent upon the availability of funds and the receipt of a sufficient number of meritorious applications, the total amount of \$16 million will be used to fund up to 6 awards of 4 years duration.

National Institutes of Health  
Small Grants for Lung Tissue Research (R03)

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-HL-08-008
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	Oct 17, 2008

Current Closing Date for Applications: Oct 17, 2008  
Archive Date: Nov 17, 2008  
Funding Instrument Type: Grant  
Category of Funding Activity: Health  
Category Explanation:  
Expected Number of Awards:  
Estimated Total Program Funding: \$2,000,000  
Award Ceiling:  
Award Floor:  
CFDA Number: 93.838 -- Lung Diseases Research  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)  
County governments  
Independent school districts  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
For profit organizations other than small businesses  
Native American tribal organizations (other than Federally recognized tribal governments)  
Small businesses  
Private institutions of higher education  
Public and State controlled institutions of higher education  
City or township governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Public housing authorities/Indian housing authorities  
Native American tribal governments (Federally recognized)  
Special district governments  
State governments

### **Additional Information on Eligibility:**

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply.

### **Description**

-Purpose. This funding opportunity announcement (FOA) solicits research grant applications from applicant organizations that propose to conduct tissue-based research on interstitial fibrotic lung disease and/or COPD (chronic obstructive pulmonary disease). Supported projects will be required to utilize lung

biospecimens and data collected by the Lung Tissue Research Consortium (LTRC). The goal of this initiative is to promote tissue-based research on COPD and interstitial fibrotic lung conditions, including studies to establish proof-of-concept in humans for novel mechanisms of pathogenesis. -Mechanism of Support. This FOA will utilize the NIH Small Grant (R03) award mechanism. - Funds Available and Anticipated Number of Awards. The NHLBI intends to commit approximately \$1 million in FY 2008 to fund approximately 12 new grants and \$1 million in FY 2009 to fund approximately 12 additional grants. Awards issued under this FOA are contingent upon the availability of funds, the submission of a sufficient number of meritorious applications, and the availability of adequate biospecimens and data from the LTRC.

### **Eligible Applicants**

Public and State controlled institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Private institutions of higher education

## Description

**Purpose.** The Centers of Excellence in Genomic Sciences (CEGS) program establishes academic Centers for advanced genome research. Each CEGS grant supports a multi-investigator, interdisciplinary team to develop innovative genomic approaches to address a particular biological problem. A CEGS project will address a critical issue in genomic science, proposing a solution that would be a very substantial advance. Thus, the research conducted at these Centers will entail substantial risk, balanced by outstanding scientific and management plans and very high potential payoff. A CEGS will focus on the development of novel technological or computational methods for the production or analysis of comprehensive data sets, or on a particular genome-scale biological problem, or on other ways to develop and use genomic approaches for understanding biological systems. Exploiting its outstanding scientific plan and team, each CEGS will nurture genomic science at its institution by facilitating the interaction of investigators from different disciplines, and by providing training of new investigators will expand the pool of professional genomics scientists and engineers. -**Mechanism of Support.** This FOA will utilize the P50 Specialized Center grant mechanism.

National Institutes of Health  
Tumor Stem Cells in Cancer Biology, Prevention, and Therapy (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-CA-08-019
Opportunity Category:	Discretionary
Posted Date:	Feb 22, 2008
Creation Date:	Feb 22, 2008
Original Closing Date for Applications:	May 12, 2008
Current Closing Date for Applications:	May 12, 2008
Archive Date:	Jun 12, 2008

Funding Instrument Type:	Grant
Category of Funding Activity:	Education Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$2,700,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.393 -- Cancer Cause and Prevention Research
CFDA Number:	93.394 -- Cancer Detection and Diagnosis Research
CFDA Number:	93.395 -- Cancer Treatment Research
CFDA Number:	93.396 -- Cancer Biology Research
CFDA Number:	93.399 -- Cancer Control
Cost Sharing or Matching Requirement:	No

### Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

- State governments
- Small businesses
- Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
- Private institutions of higher education
- Public and State controlled institutions of higher education
- For profit organizations other than small businesses
- Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

### Description

-Purpose The objective of this Funding Opportunity Announcement (FOA) is to stimulate research in the area of tumor stem cell biology including characterization of tumor stem cell markers, and to identify of specific genetic and functional signatures of tumor stem cells. The goal is the translation of basic research findings into clinical practice in the context of both hematological and solid tumor malignancies. Therefore, applications submitted in response to this FOA must involve appropriate and substantive collaborative arrangements between basic and translational researchers providing, respectively, expertise in the biology of tumor stem cells and in translation of basic research findings into clinical practice. To facilitate substantive collaborations, applicants are encouraged to take advantage of the multiple Principal Investigators option. - Mechanism of Support. This FOA will utilize the NIH research project R01 grant mechanism. Another FOA of identical scientific scope but using the NIH Program

Project (P01) mechanism will be released in the near future as RFA-CA-08-020. - Funds Available and Anticipated Number of Awards. A total of approximately \$2.7M annually is available over 5 years. The NCI expects to fund an estimated five to six awards.

Small businesses  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Public and State controlled institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher

education  
For profit organizations other than small businesses

## Description

-Purpose. The National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) invites applications for Silvio O. Conte Digestive Diseases Research Core Centers (DDRCCs). The DDRCCs are part of an integrated program of digestive and liver diseases research support provided by the NIDDK. - Mechanism of Support. This FOA will utilize the Center Core Grant (P30) grant mechanism -Funds Available and Anticipated Number of Awards. A total of approximately \$3,600,000 in FY 2009 will be committed to fund three new or competing renewal applications in response to this RFA. Three existing DDRCCs are expected to submit competing renewal applications. A total of approximately \$4,800,000 in FY 2010 will be committed to fund four new or competing renewal applications. Four existing DDRCCs are expected to submit competing renewal applications.

Faith-based or community-based organizations can apply

### Description

-Purpose. To support development of vaccines, vaccine technologies, therapeutics, immunotherapeutics, adjuvants and medical diagnostics for NIAID Category A, B, and C priority pathogens and toxins (<http://www.niaid.nih.gov/biodefense/PDF/cat.pdf>). -Mechanism of Support. This RFA will utilize the U01 cooperative agreement grant mechanism. -Funds Available and Anticipated Number of Awards. \$26 million available to support 15-20 awards. Awards issued under this RFA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary.

## Eligible Applicants

1. Eligible Applicants 1.A. Eligible Institutions You may submit an application if your organization has any of the following characteristics: • Public nonprofit organizations • Private nonprofit organizations • For profit organizations • Small, minority, and women-owned businesses • Universities • Colleges • Research institutions • Hospitals • Community-based organizations • Faith-based organizations • Federally recognized or state-recognized American Indian/Alaska Native tribal governments • American Indian/Alaska Native tribally designated organizations • Alaska Native health corporations • Urban Indian health organizations • Tribal epidemiology centers • State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau) • Political subdivisions of States (in consultation with States) A Bona Fide Agent is an agency/organization identified by the state as eligible to submit an application under the state eligibility in lieu of a state application. If you are applying as a bona fide agent of a state or local government, you must provide a letter from the state or local government as documentation of your status. Attach this documentation behind the first page of your application form or for electronic applications, use a PDF file and attach as "Other Documents" and label as appropriate.

## Description

This FOA will support spina bifida clinics in the United States to test the feasibility of utilizing a standardized registry tool for collecting data on patients with spina bifida. The initial collection and entry of patient data into a central data repository constitutes an essential step in the development of a national spina bifida registry. It is anticipated that the establishment of a national Spina Bifida Patient Registry will result in improved quality of care for patients with spina bifida and identify areas for future research.

Award Ceiling:	\$500,000
Award Floor:	\$0
CFDA Number:	93.283 -- Centers for Disease Control and Prevention Investigations and Technical Assistance
Cost Sharing or Matching Requirement:	No

## Eligible Applicants

1. Eligible Applicants 1.A. Eligible Institutions You may submit an application(s) if your organization has any of the following characteristics: • Public nonprofit organizations • Private nonprofit organizations • For profit organizations • Small, minority, and women-owned businesses • Universities • Colleges • Research institutions • Hospitals • Community-based organizations • Faith-based organizations • Federally recognized or state-recognized American Indian/Alaska Native tribal governments • American Indian/Alaska Native tribally designated organizations • Alaska Native health corporations • Urban Indian health organizations • Tribal epidemiology centers • State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau) • Political subdivisions of States (in consultation with States) A Bona Fide Agent is an agency/organization identified by the state as eligible to submit an application under the state eligibility in lieu of a state application. If you are applying as a bona fide agent of a state or local government, you must provide a letter from the state or local government as documentation of your status. Attach this documentation behind the first page of your application form or for electronic applications, use a PDF file and attach as "Other Documents" and label as appropriate.

## Description

The intent of this FOA is to build upon PA02172 and RFA-DD-06-002. NCBDDD plans to use FY08 funds to add two additional sites or contiguous geographic areas to the MD STARnet system in order to more adequately approximate the national racial and ethnic demographic profile. Specifically, Black/African Americans and Asian American/Pacific Islanders are under-represented in the current study population.

Administration for Children and Families Standing Announcement for Unaccompanied Alien Children Grant

Document Type:	Grants Notice
Funding Opportunity Number:	HHS-2008-ACF-ORR-ZU-0119
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted

electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.

Current Closing Date for Applications: Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.

Archive Date: Apr 23, 2008

Funding Instrument Type: Cooperative Agreement

Category of Funding Activity: Income Security and Social Services

Category Explanation:

Expected Number of Awards: 8

Estimated Total Program Funding: \$35,000,000

Award Ceiling: \$30,000,000

Award Floor: \$500,000

CFDA Number: 93.676 -- Unaccompanied Alien Children Program

Cost Sharing or Matching Requirement: No

## Eligible Applicants

Eligibility is open to all types of domestic applicants other than individuals. Non-profit organizations (including faith-based and community organizations) and for-profit organizations are eligible to apply. Organizations must be appropriately licensed (at the time of submission of the application) as facilities for the provision of shelter care and other related services to dependent children. For-profit organizations must clearly demonstrate that they are only charging the program actual costs incurred. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

## Description

One of the functions of the Office of Refugee Resettlement (ORR) Division of Unaccompanied Children's Services (DUCS) is to provide temporary shelter care and other related services to children in ORR custody. Shelter care services will be provided for the period beginning when DUCS accepts the child for placement and custody and ending when the child is released from custody, a final disposition of the child's immigration case results in removal of the child from the United States, or the child turns 18 years of age. Shelter care and other child welfare related services in a State-licensed residential shelter care program will be provided in the least restrictive setting appropriate to the Unaccompanied Alien Children's (UAC) age and special needs. While the majority of UAC remain in care for an average of 55 days, some will stay for shorter or longer periods of

time. This announcement provides the opportunity to fund providers for basic shelter and/or group homes, staff secure, secure and more specialized types of care. There are two priority areas for funding and applicants can apply to both priority areas under separate applications.

### **National Institutes of Health Comparative Systems Genetics of Cancer (R01) Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-CA-08-017
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	May 14, 2008
Current Closing Date for Applications:	May 14, 2008
Archive Date:	Jun 14, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Education Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$15,000,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.393 -- Cancer Cause and Prevention Research
CFDA Number:	93.394 -- Cancer Detection and Diagnosis Research
CFDA Number:	93.395 -- Cancer Treatment Research
CFDA Number:	93.396 -- Cancer Biology Research
CFDA Number:	93.399 -- Cancer Control
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Small businesses  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Private institutions of higher education  
Public and State controlled institutions of higher education  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
State governments  
For profit organizations other than small businesses  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

## **Description**

**Purpose.** This NCI-sponsored Funding Opportunity Announcement (FOA) solicits grant applications for research projects focused on the development and application of comparative (cross-species) systems genetics approaches to address key cancer-relevant problems. The NCI requests applications for research projects that will use these approaches to enhance the understanding of the mechanisms that underlie: (i) human cancer susceptibility and (ii) heterogeneity of human tumors. The NCI expects that, to meet these goals, the proposed projects will involve appropriate interdisciplinary collaborations providing expertise in such areas as human genetics, statistical genetics, model organism genetics, systems biology, mathematical or computational modeling of biological processes, and computer sciences. The NCI requires that all projects propose to use two species, one of which must be human, and that the projects adhere to the cancer Biomedical Informatics Grid (caBIG ) standards. -  
**Mechanism of Support.** This FOA will utilize the NIH Research Project (R01) grant mechanism. -  
**Funds Available and Anticipated Number of Awards.** The NCI intends to commit approximately \$3 million per year for up to five years to fund four to six individual multi-disciplinary research programs.

CFDA Number:	93.989 -- International Research and Research Training
Cost Sharing or Matching Requirement:	No

## Eligible Applicants

### Others

Foreign institutions are not eligible to apply. -Only institutions with currently funded AITRP awards are eligible to apply. -Only Principal investigators of parent grants of currently funded AITRP awards can apply.

## Description

-Purpose. The FIC AIDS International Research and Training Program, in partnership with the NCI Office of AIDS Malignancy Program, is seeking competing revision (formerly called supplement) applications to currently funded AITRP grants at U.S. institutions to complement on-going or to expand research training related to HIV-associated malignancies in low- and middle-income countries. The applications should propose only research training and should be in sites in low-and middle-income countries in which researchers at the AITRP US institutions have existing research collaborations. -Mechanism of Support. This funding opportunity will support revision (formerly competing supplement) applications. to current AITRP (D43) Principal investigators who wish to add capacity to conduct research related to HIV/AIDS and cancer at sites in low-and middle-income countries in which researchers at the AITRP US institutions have existing research collaborations. Applicants may request a project period of up to the length of their existing parent award but not more than three years and a budget for direct costs up to \$138,000 dollars per year with 8% F and A allowed. The anticipated start date will be September 2008. -Funds Available and Anticipated Number of Awards. Funding available \$1.75m from NCI for 11-12 awards.

### **Eligible Applicants**

#### **Others**

Public or private nonprofit agencies are eligible applicants. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

### **Description**

The Office of Refugee Resettlement (ORR) invites the submission of applications for funding, on a competitive basis, to connect newcomer refugees and their communities with community resources. The objective of this program is to strengthen organized ethnic communities comprised and representative of refugee populations to ensure ongoing support and services to refugees after initial resettlement. This announcement replaces the Priority Area Three - Ethnic Community Self-Help program included in the Standing Announcement for Services for Recently Arrived Refugees published in the Federal Register on April 23, 2004. The Director will observe March 24, 2008, as the first closing date for applications. Thereafter, the Director will observe February 24, 2009 and February 24, 2010 as the closing dates for applications.

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

Public or private nonprofit agencies are eligible applicants. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

### **Description**

The Office of Refugee Resettlement (ORR) invites the submission of applications for funding, on a competitive basis, for Supplemental Services for Recently Arrived Refugees to provide services to arriving refugees or sudden and unexpected large secondary migration of refugees where communities are not sufficiently prepared in terms of linguistic or culturally appropriate services. This announcement replaces the Priority Area Two - Unanticipated Arrivals program included in the Standing Announcement for Services for Recently Arrived Refugees published in the Federal Register on April 23, 2004. The Director will observe March 24, 2008, as the first closing date for applications. Thereafter, the Director will observe February 24, 2009 and February 24, 2010 as the closing

dates for applications. An applicant may submit more than one application under this announcement.

### **Administration for Children and Families Standing Announcement for the Preferred Communities Program Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	HHS-2008-ACF-ORR-RP-0112
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 01, 2008
Original Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Current Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Archive Date:	Apr 23, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Income Security and Social Services
Category Explanation:	
Expected Number of Awards:	6
Estimated Total Program Funding:	\$600,000
Award Ceiling:	\$300,000
Award Floor:	\$100,000
CFDA Number:	93.576 -- Refugee and Entrant Assistance Discretionary Grants
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

#### **Others**

Eligible applicants are ten national voluntary agencies that currently resettle refugees under a Reception and Placement Cooperative Agreement with the

Department of State or with the Department of Homeland Security. The Preferred Communities program is restricted to these agencies because placements of new arrivals occur under the terms of the cooperative agreements, and no other agencies place new arrivals or participate in determining their resettlement sites. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

## Description

The Office of Refugee Resettlement (ORR) invites the submission of applications for funding, on a competitive basis, for the Preferred Communities program to support the resettlement of newly arrived refugees in Preferred Communities where they have ample opportunities for early employment and sustained economic independence and, to address special populations who need intensive case management, culturally and linguistically appropriate linkages and coordination with other service providers to improve their access to services. This announcement replaces the Priority Area One - Preferred Communities program included in the Standing Announcement for Services for Recently Arrived Refugees published in the Federal Register on April 23, 2004. The Director will observe March 24, 2008, as the first closing date for applications. Thereafter, the Director will observe February 24, 2009 and February 24, 2010 as the closing dates for applications. An applicant may submit more than one application under this announcement.

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions

of higher education  
Public housing authorities/Indian housing authorities  
Faith-based or community-based organizations can apply.

## Description

-Purpose. This Funding Opportunity Announcement (FOA) issued by National Cancer Institute, National Institutes of Health, encourages the submission of research project grant applications from institutions/ organizations that propose to: (1) improve the measurement of racial /ethnic discrimination in health care delivery systems through improved instrumentation, data collection, and statistical/analytical techniques; (2) to enhance understanding of the influence of racial/ethnic discrimination in health care delivery and its association with disparities in disease incidence, treatment, and outcomes among disadvantaged racial/ethnic minority groups; and (3) to reduce the prevalence of racial/ethnic health disparities through the development of interventions to reduce the influence of racial/ethnic discrimination on health care delivery systems in the United States (U.S.). -Mechanism of Support. This funding opportunity announcement (FOA) will utilize the NIH Research Project Grant (R01) award mechanism and runs in parallel with FOAs of identical scientific scope, PA-08-084 and PA-08-085, which encourage applications under the R21 and R03 mechanisms, respectively. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

## Description

-Purpose. This Funding Opportunity Announcement (FOA) encourages the submission of Small Research Grant (R03) applications from organizations/institutions that propose to: (1) improve the measurement of racial /ethnic discrimination in health care delivery systems through improved instrumentation, data collection, and statistical/analytical techniques; (2) to enhance understanding of the influence of racial/ethnic discrimination in health care delivery and its association with disparities in disease incidence, treatment, and outcomes among disadvantaged racial/ethnic minority groups; and (3) to reduce the prevalence of racial/ethnic health disparities through the development of interventions to reduce the influence of racial/ethnic discrimination on health care delivery systems in the United States. -Mechanism of Support. This Funding Opportunity Announcement (FOA) will utilize the NIH Small Grant (R03) mechanism. This FOA runs in parallel with FOAs of identical scientific scope, PA-08-083 and PA-08-084, which encourage applications under the R01 and R21

grant mechanisms, respectively. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications; therefore, the anticipated number of awards is not known. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award may also vary. The total amount awarded and the number of awards will depend upon the quality, duration, and costs of the applications received.

### **Health Resources & Services Administration Targeted Rural Health Research Grant Program Modification 1**

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-061
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 07, 2008
Original Closing Date for Applications:	Apr 02, 2008
Current Closing Date for Applications:	Apr 02, 2008
Archive Date:	Jun 01, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$750,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.155 -- Rural Health Research Centers
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

Eligibility is open to any public, private, and non-profit organizations, including faith-based and community organizations. The applicants whose proposed principle investigator is new to the field, as well as those with previous rural health services research experience, may apply. The proposed principle investigator however should have at least one publication in a peer-reviewed journal of which he/she is either the author or co-author. Institutions that received a grant award under the Targeted Rural Health Research Grant Program (formerly titled the One-Year Rural Health Research Grant Program in 2005 and 2006) within the last three years (i.e. September 2005, 2006, or 2007) are not eligible for funding under this program for FY 2008. Schools that receive a Rural Health Research Center (RHRC) award in 2008 are ineligible for the Targeted Rural Health Research grant program because these entities will already be receiving research funding for a similar program from HRSA. Separate schools within the same university however, would be eligible. Applicants must be capable of receiving the grant funds directly and must have the capability to manage the project. No "financial intermediary" grant applications will be accepted. Applicants must be able to exercise administrative and program direction over the grant project; must have the administrative and accounting capabilities to manage the grant funds; and must have some permanent research staff at the time the application is submitted.

## **Description**

This grant program supports 18-month Rural Health Research studies on a selected number of topics. Recipients of grants will conduct and disseminate policy-relevant research on issues of national significance in the area of rural health services as they relate to the following topic areas: Rural Health Clinics, Frontier Health Service Delivery, Emergency Medical Services (EMS), Rural Health Leadership, Allied Health Workforce, and Public Health. Please see the "Eligibility Information; Other Limitations; Research Areas" section of the guidance for further details regarding eligible research topics.

CFDA Number: 93.153 -- Coordinated Services and Access to  
Research for Women, Infants, Children, and  
Youth  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Others This funding is limited to current Part D grantees.

### **Description**

The purpose of these funds is for expanded activities within Part D programs to improve access to primary medical care, research, and support services for HIV-infected women, infants, children and youth, and to provide support services for their affected family members.

National Institutes of Health  
NIDA Comprehensive Research Center of Excellence Grant Program (P60)

Document Type: Grants Notice  
Funding Opportunity Number: PAR-08-086  
Opportunity Category: Discretionary  
Posted Date: Feb 01, 2008  
Creation Date: Feb 01, 2008  
Original Closing Date for Applications: May 07, 2010  
Current Closing Date for Applications: May 07, 2010  
Archive Date: Jun 07, 2010  
Funding Instrument Type: Grant

Category of Funding Activity: Education  
Health

Category Explanation:

Expected Number of Awards:

Estimated Total Program Funding:

Award Ceiling:

Award Floor:

CFDA Number: 93.279 -- Drug Abuse and Addiction Research  
Programs

Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Private institutions of higher education  
Native American tribal organizations (other than Federally recognized tribal governments)  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Native American tribal governments (Federally recognized)  
Public and State controlled institutions of higher education  
Small businesses  
State governments  
Independent school districts  
For profit organizations other than small businesses  
County governments  
City or township governments  
Public housing authorities/Indian housing authorities  
Special district governments  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Faith-based or community-based organizations can apply.

### **Description**

-This FOA is to provide support for research centers that conduct drug abuse and addiction research that have outstanding innovative science and that are multidisciplinary, thematically integrated, synergistic, and are/will be serving as national resource(s) for the NIDA research fields. -There should be evidence that the presence of a center structure is essential for the accomplishment of the research activities. -It is expected that a Center will transform knowledge in the sciences it is studying. Incremental work should not be the focus of Center activities; rather, new and creative directions are required. -Research may occur in any area of NIDA's mission. Each separate project should bear an essential relationship to the integrating theme.

Centers for Disease Control and Prevention Centers for Disease Control and Prevention  
Health Promotion and Disease Prevention Research Centers: FY08 Special Interest  
Project Competitive Supplements Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-DP-08-002
Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 01, 2008
Original Closing Date for Applications:	Apr 01, 2008
Current Closing Date for Applications:	Apr 01, 2008
Archive Date:	May 01, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$550,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.135 -- Centers for Research and Demonstration for Health Promotion and Disease Prevention
Cost Sharing or Matching Requirement:	No

## Eligible Applicants

### Others

Only applicants who have applied for and have been selected as PRCs under CDC Program Announcement 04003 are eligible to compete for the SIP supplemental funding. Competition is limited to PRCs funded under PA 04003 because they are uniquely positioned to perform, oversee, and coordinate community-based participatory research that promotes the field of prevention research due to their established relationships with community partners. The supplemental projects in this RFA complement ongoing prevention research projects being conducted as part of the CDC Prevention Research Program.

## Description

This FOA builds upon the infrastructure of the Prevention Research Center (PRC) program and solicits applications in the form of cooperative agreements to

support supplemental health promotion and disease prevention research projects that: 1) focus on the major causes of death and disability; 2) improve public health practice within communities; and 3) cultivate effective state and local public health programs. CDC will use the FY08 Special Interest Projects (SIP) mechanism to provide supplemental funding to PRCs to design, test, and disseminate effective prevention research strategies in the areas of epilepsy, aging, and in the built environment to promote public health.

### **National Institutes of Health Health Behavior Change in People with Mental Disorders (R01) Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	PA-08-089
Opportunity Category:	Discretionary
Posted Date:	Feb 04, 2008
Creation Date:	Feb 04, 2008
Original Closing Date for Applications:	May 07, 2011
Current Closing Date for Applications:	May 07, 2011
Archive Date:	Jun 07, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	
Award Floor:	
CFDA Number:	93.242 -- Mental Health Research Grants
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Small businesses  
Special district governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Native American tribal governments (Federally recognized)  
County governments  
Native American tribal organizations (other than Federally recognized tribal governments)

State governments  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Public housing authorities/Indian housing authorities  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Private institutions of higher education  
Independent school districts  
Public and State controlled institutions of higher education  
City or township governments  
For profit organizations other than small businesses

#### **Additional Information on Eligibility:**

Foreign institutions are eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply.

#### **Description**

-Purpose. The National Institute of Mental Health (NIMH) encourages studies on health behavior change related to function, disability, morbidity, and mortality in people with mental disorders. An important goal of this Funding Opportunity Announcement (FOA) is to identify potent, modifiable risk and protective health behavior factors amenable to intervention, and to translate the results of such studies into initial tests of theory-driven prevention and early intervention strategies aimed at improving function and decreasing disability, morbidity, and mortality among people with mental disorders. Risk and protective factors include biological, psychosocial, behavioral, and environmental contributors to health behaviors among people with mental disorders. It is incumbent upon the applicant to demonstrate the public health significance of the study by describing the severity and/or prevalence of the health behaviors, disability, morbidity, or mortality of the populations represented in the topics studied. -Mechanism of Support. This FOA will use the NIH Research Project Grant (R01) award mechanism. Applications of identical scientific scope are solicited also under the NIH Small Research Grant (R03) and the NIMH Clinical Exploratory/Developmental Research Grant (R34) award mechanisms, responding to FOAs PA-06-180 and PA-06-248, respectively. -Funds Available and Anticipated Number of Awards. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the mechanism numbers, quality, duration, and costs of the applications received.

State governments  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Small businesses  
Independent school districts  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:**

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply.

**Description**

-Purpose. The National Institute of Mental Health (NIMH) invites research grant applications to support core infrastructure for conducting intervention and/or services research directly addressing the mission of NIMH, which is to reduce the burden of mental and behavioral disorders through research on mind, brain, and behavior. In particular, this initiative addresses the mission of the Division of Services and Intervention Research (DSIR), as well as that of the NIMH Geriatrics Research Branch. The DSIR supports two main areas of research: a) intervention research to evaluate the effectiveness of pharmacologic, psychosocial, somatic, rehabilitative and combination treatment or preventive interventions on mental and behavior disorders, and b) mental health services research that consists of interdisciplinary investigations of the predictors, processes and outcomes of mental health services, including availability, access and acceptability; organization; decision-making; service delivery, utilization and quality of care; costs, cost-effectiveness and financing of mental health care, and the dissemination and implementation of effective interventions into service systems. The Geriatrics Research Branch supports intervention research relevant to older adults. The purpose of this Funding Opportunity Announcement (FOA) is to establish infrastructure support for groups of investigators to further expand their intervention and/or services research. Applicants under this FOA must have current ongoing research activities relevant to mental health intervention and/or services. This FOA is issued as a companion to the PAR-08-088, Advanced Centers for Intervention and/or Services Research (ACISR), which requires a larger amount of existing research activity than required for this funding opportunity. This FOA is meant to support investigators with active, but still limited research programs, who can benefit from infrastructure support to further develop and expand their research activities. The scope of this initiative is broad and meant to support investigators involved in treatment, prevention, and/or services research. Thus, this center grant mechanism can be utilized for a variety of research activities, such as controlled clinical trials of treatment or preventive interventions, research aimed at optimization and personalization of care, evaluation and improvement of the safety of interventions, research on the dissemination and implementation of evidence-based interventions, evaluation and improvement of mental health services, or economics of mental health services. Along the spectrum from effectiveness to services research, the applicant should indicate and justify the specific focus of the center that is being proposed. Novel methodological and organizational approaches and the creation of multidisciplinary research teams are especially encouraged. Based on the type and stage of development of the research activities being pursued, applicants can propose collaborations between academic investigators and relevant partners and justify support of the collaboration as part of the center.

Health Resources & Services Administration Targeted Rural Health Research Grant  
Program Modification 3

Document Type:  
Funding Opportunity Number:

Modification to Previous Grants Notice  
HRSA-08-061

Opportunity Category:	Discretionary
Posted Date:	Feb 01, 2008
Creation Date:	Feb 07, 2008
Original Closing Date for Applications:	Apr 02, 2008
Current Closing Date for Applications:	Apr 02, 2008
Archive Date:	Jun 01, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$750,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.155 -- Rural Health Research Centers
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Eligibility is open to any public, private, and non-profit organizations, including faith-based and community organizations. The applicants whose proposed principle investigator is new to the field, as well as those with previous rural health services research experience, may apply. The proposed principle investigator however should have at least one publication in a peer-reviewed journal of which he/she is either the author or co-author. Institutions that received a grant award under the Targeted Rural Health Research Grant Program (formerly titled the One-Year Rural Health Research Grant Program in 2005 and 2006) within the last three years (i.e. September 2005, 2006, or 2007) are not eligible for funding under this program for FY 2008. Schools that receive a Rural Health Research Center (RHRC) award in 2008 are ineligible for the Targeted Rural Health Research grant program because these entities will already be receiving research funding for a similar program from HRSA. Separate schools within the same university however, would be eligible. Applicants must be capable of receiving the grant funds directly and must have the capability to manage the project. No "financial intermediary" grant applications will be accepted. Applicants must be able to exercise administrative and program direction over the grant project; must have the administrative and accounting capabilities to manage the grant funds; and must have some permanent research staff at the time the application is submitted.

### **Description**

This grant program supports 18-month Rural Health Research studies on a selected number of topics. Recipients of grants will conduct and disseminate policy-relevant research on issues of national significance in the area of rural health services as they relate to the following topic areas: Rural Health Clinics, Frontier Health Service Delivery, Emergency Medical Services (EMS), Rural Health Leadership, Allied Health Workforce, and Public Health. Please see the

"Eligibility Information; Other Limitations; Research Areas" section of the guidance for further details regarding eligible research topics.

City or township governments  
Independent school districts  
Special district governments  
County governments  
Small businesses  
Faith-based or community-based organizations can apply.

## **Description**

-Purpose. This Funding Opportunity Announcement (FOA) issued by the National Institute of Dental and Craniofacial Research (NIDCR), National Institutes of Health (NIH), solicits proposals to develop new insight into the role of microbes in human oral health and disease through research on the total oral microbial community (microbiota) using metagenomic approaches built upon recent developments in DNA sequencing, gene assembly, and bioinformatics. The ultimate goal is to completely characterize all microbes and their genes (microbiome) in the oral environment. To this end, we are soliciting projects that will analyze the genomes of both cultivatable and uncultivable bacteria, archaea, viruses, fungi, and parasites. Applicants will be expected to work with state-of-the-science genomic sequencing centers and bioinformatics groups to sequence and annotate all microbes in the oral cavity under conditions of health and disease. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

## Description

-The NIH ORD, NIAMS, NIDDK, NICHD, NINDS, NIA, NIAAA, NCI, NIDCR and NHLBI invite new and renewal cooperative agreement applications to continue the Rare Diseases Clinical Research Network (RDCRN). The Network has two main components: Rare Diseases Clinical Research Consortia (RDCRC) and a Data Management and Coordinating Center (DMCC) (formerly known as Data Technology Coordinating Center, DTCC). The purpose of this Funding Opportunity Announcement (FOA) is to invite new and renewal cooperative agreement applications for RDCRCs that individually focus on a subset of related rare diseases. A separate FOA has been published to invite new and renewal cooperative agreement applications for DMCC at <http://grants.nih.gov/grants/guide/rfa-files/RFA-OD-08-002.html>. -The purpose of the Network is to facilitate clinical research in rare diseases through support for 1) collaborative clinical research in rare diseases, including longitudinal studies of individuals with rare diseases, clinical studies and/or phase I , II and II/III trials; 2) training of clinical investigators in rare diseases research; 3) pilot and demonstration projects 4) a test bed for distributed clinical data management that incorporates novel approaches and technologies for data management, data mining, and data sharing across rare diseases, data types, and platforms; and 5) access to information related to rare diseases for basic and clinical researchers, academic and practicing physicians, patients, and the lay public. Items 1-3 and 5 must be addressed in RDCRC application and item 4 must be addressed in DMCC application (<http://grants.nih.gov/grants/guide/rfa-files/RFA-OD-08-002.html>)

### **Description**

-Purpose. The NIH ORD and NINDS invite new and renewal cooperative agreement applications to continue the Data Management and Coordinating Center for the Rare Diseases Clinical Research Network (RDCRN). The Network has two main components: Rare Diseases Clinical Research Consortia (RDCRCs) and a Data Management and Coordinating Center (DMCC) (formerly known as Data Technology Coordinating Center, DTCC). The purpose of this Funding Opportunity Announcement (FOA) is to invite new and renewal cooperative agreement applications for the DMCC, which supports the RDCRN. A separate FOA has been published to invite new and renewal cooperative agreement applications for RDCRCs at <http://grants.nih.gov/grants/guide/rfa->

files/RFA-OD-08-001.html. The purpose of the Network is to facilitate clinical research in rare diseases through support for 1) collaborative clinical research in rare diseases, including longitudinal studies of individuals with rare diseases, clinical studies and/or phase I , II and II/III trials; 2) training of clinical investigators in rare diseases research; 3) pilot and demonstration projects; 4) a test bed for distributed clinical data management that incorporates novel approaches and technologies for data management, data mining, and data sharing across rare diseases, data types, and platforms; and 5) access to information related to rare diseases for basic and clinical researchers, academic and practicing physicians, patients, and the lay public. The DMCC (U54) cooperative agreement application will focus on issues relevant to item 4) and 5).

-Mechanism of Support. This FOA will use the NIH U54 cooperative agreement award mechanism. Responsibility for the planning, direction, and execution of the proposed projects will be solely that of the applicant. The total project period for an application submitted in response to this FOA may not exceed 5 years. - Funds Available and Anticipated Number of Awards. The NIH ORD intends to commit approximately \$875,000 in total cost (i.e direct cost plus Facilities and Administrative (F and A) costs) per year to fund one DMCC, which will support at least seven RDCRC. ORD and the participating institutes and centers (ICs) intend to fund approximately seven RDCRCs in response to the companion RFA-OD-08-001. Should the size of Network increase to approximately 10 consortia, the NIH ORD intends to commit \$1.25 M per year to fund one DMCC.

Department of Health and Human Services  
National Institutes of Health  
Novel Approaches to Study Polymicrobial Diseases (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PA-08-091
Opportunity Category:	Discretionary
Posted Date:	Feb 06, 2008
Creation Date:	Feb 06, 2008
Original Closing Date for Applications:	May 07, 2011
Current Closing Date for Applications:	May 07, 2011
Archive Date:	Jun 07, 2011
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	

Award Ceiling:

Award Floor:

CFDA Number: 93.121 -- Oral Diseases and Disorders Research

CFDA Number: 93.173 -- Research Related to Deafness and Communication Disorders

CFDA Number: 93.838 -- Lung Diseases Research

Cost Sharing or Matching Requirement: No

## **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Special district governments

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

For profit organizations other than small businesses

Native American tribal organizations (other than Federally recognized tribal governments)

Small businesses

State governments

County governments

Public housing authorities/Indian housing authorities

Native American tribal governments (Federally recognized)

Public and State controlled institutions of higher education

Independent school districts

City or township governments

Private institutions of higher education

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Faith-based or community-based organizations can apply.

## **Description**

-Purpose. This Funding Opportunity Announcement (FOA) issued by the National Institute of Dental and Craniofacial Research (NIDCR), the National Heart, Lung, and Blood Institute (NHLBI), and the National Institute on Deafness and Other Communication Disorders (NIDCD), National Institutes of Health (NIH), solicits research grant applications to conduct studies designed to develop innovative approaches that would contribute to our understanding of the mechanisms that impact on the virulence of infections involving two or more microorganisms or strains of microorganisms (with the exception of HIV). -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) mechanism that runs in parallel with a FOA of identical scientific scope, PA-08-092, and encourages applications under the R21 mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Private institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Public and State controlled institutions of higher education

## Description

-The National Institute of Mental Health (NIMH) announces its support of the NIMH Career Opportunities in Research (NIMH COR) Honors Undergraduate Research Training Grant (T34) program. The goal of the program is to provide support for pre-baccalaureate research training to help ensure that a diverse and highly trained workforce is available to assume leadership roles related to the Nation's biomedical, neuroscience, behavioral and clinical research agenda for mental health. The specific objectives are to: (a) increase the number of well-prepared undergraduate students from diverse backgrounds who complete a research training program leading to a research doctorate (Ph.D., M.D./Ph.D. or equivalent) in biomedical, neuroscience, behavioral, or clinical sciences relevant to mental health research; and (b) develop and strengthen the undergraduate research training curricula with relevance to mental health. -This program utilizes the T34 Ruth L. Kirschstein National Research Service Award (NRSA) funding mechanism. -Because the nature and scope of the proposed research training will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the number, quality, duration, and costs of the applications received.

Department of Health and Human Services  
Substance Abuse & Mental Health Services Administration  
Grants to Expand Substance Abuse Treatment Capacity for Drug Courts Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	TI-08-007
Opportunity Category:	Discretionary
Posted Date:	Feb 05, 2008
Creation Date:	Feb 11, 2008
Original Closing Date for Applications:	Apr 10, 2008
Current Closing Date for Applications:	Apr 10, 2008
Archive Date:	May 10, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	18
Estimated Total Program Funding:	\$5,400,000
Award Ceiling:	\$300,000
Award Floor:	\$0
CFDA Number:	93.243 -- Substance Abuse and Mental Health Services Projects of Regional and National

## Significance

Cost Sharing or Matching Requirement: No

## Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

## Additional Information on Eligibility:

In the Treatment Drug Court model, judges have the authority to assign clients to treatment facilities/programs as they deem appropriate. In other words, the drug court judge, not the treatment program, is the catalyst for enrollment into community-based treatment programming. Because the Treatment Drug Court judge is the pivotal figure and not the public and private nonprofit organization, SAMHSA/CSAT is restricting eligibility to existing individual adult treatment drug courts that have demonstrated relationships/agreements with existing community-based substance abuse treatment providers in order to create the necessary networks to successfully implement these grants. Furthermore, it is the intention of this program to provide funding to enhance and/or expand treatment and recovery support for individual drug courts. Some State or County Court integrated/consolidated systems require that individual drug courts apply through the State or County. In those cases, if the State or County is the applicant, it will be the award recipient and the entity responsible for satisfying the grant requirements. This approach is permitted, but all grant funds awarded must be dedicated to the individual drug court with the exception of a small set aside, not to exceed two percent of the total award, that is permissible to cover the cost of administration and oversight of the grant. This grant program is not intended to provide start-up funds to create new treatment drug courts. Therefore, it is essential that applicant drug courts have been operational for at least one year at the time of application. Operational is defined as a judge being designated as a "drug court" judge with a "drug court" docket of cases and seeing defendants in "drug court" on a regular and recurring basis for at least one year prior to the submission of the grant application. By signing the cover page (SF 424 v2) of the application, the authorized representative of the applicant organization is certifying that the Treatment Drug Court for which grant funds are requested is operational as defined above.

## Description

The Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment is accepting applications for fiscal year (FY) 2008 Grants to Expand Substance Abuse Treatment in Adult Drug Courts. The purpose of the program is to expand and/or enhance substance abuse treatment services in "problem solving" courts which use the treatment drug court model in order to provide alcohol and drug treatment, recovery support services supporting substance abuse treatment, screening, assessment, case management, and program coordination to adult defendants/offenders. Priority for the use of the funding should be given to addressing gaps in the continuum of

treatment. Grantees will be expected to provide a coordinated, multi-system approach designed to combine the sanctioning power of treatment drug courts with effective treatment services to break the cycle of criminal behavior, alcohol and/or drug use, and incarceration or other penalties. Treatment Drug Courts use regular appearances of the client before a judge (who is part of, or guided by, a team of relevant professionals) in order to monitor compliance with court ordered conditions and substance abuse treatment. SAMHSA intends that its services grants result in the delivery of services as soon as possible after award. Service delivery should begin by the 4th month of the project at the latest. Treatment Drug Court grants are authorized under Section 509 of the Public Health Service Act, as amended. This announcement addresses Healthy People 2010 focus area 26 (Substance Abuse) of the Public Health Service Act.

Mental Health Dissertation Research Grant To Increase Diversity (R36) Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	PAR-06-217
Opportunity Category:	Discretionary
Posted Date:	Mar 03, 2006
Creation Date:	Feb 12, 2008
Original Closing Date for Applications:	Multiple Receipt Dates - See Link to Full Announcement for details.
Current Closing Date for Applications:	Jan 07, 2009 Multiple Receipt Dates - See Link to Full Announcement for details.
Archive Date:	Feb 07, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$35,000
Award Floor:	
CFDA Number:	93.242 -- Mental Health Research Grants
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Public and State controlled institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Private institutions of higher education

### **Additional Information on Eligibility:**

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government are eligible to apply. You may submit (an) application(s) if your organization has any of the following characteristics: Public or private institutions, such as universities, colleges, hospitals, and laboratories Eligible agencies of the Federal Government Domestic Institutions In addition, eligible institutions must have an accredited doctoral degree-granting program in the candidate s area of study.

### **Description**

The purpose of this funding opportunity is to increase the diversity of the mental health research workforce. It will enable qualified doctoral candidates to pursue research careers in any area relevant to the research mission of the National Institute of Mental Health (NIMH). These awards are available to US citizens or permanent residents who are predoctoral students advanced to candidacy in accredited research doctoral programs in the United States (including Puerto Rico and other U.S. territories or possessions). The total amount to be awarded and the number of anticipated awards will depend upon the quality, duration, and costs of the applications received as determined by the peer review process, available funds, and program priorities. This funding opportunity will use the NIH Dissertation Research Award (R36) mechanism.

Award Ceiling:	
Award Floor:	
CFDA Number:	93.918 -- Grants to Provide Outpatient Early Intervention Services with Respect to HIV Disease
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Eligible applicants must be public or private non-profit agencies. These may include by are not limited to: Consolidated Health Center Programs (Community Health Centers, Migrant Health Centers, Health Care for the Homeless, Public Housing Primary Care and Healthy Schools, Healthy Communities) receiving support under Section 330 of the PHS Act; Family planning agencies under Section 1001 of the PHS Act, other than States; Comprehensive Hemophilia Diagnostic and Treatment Centers; Federally qualified health centers as described in Title XIX, Section 1905 of the Social Security Act; Nonprofit private entities that currently provide comprehensive primary care services to populations at risk of HIV disease; Local health departments; University/Medical

Center affiliated clinics. Faith-based and community-based organizations are eligible to apply. Eligible applicants must be public or private non-profit agencies. These may include but are not limited to: Consolidated Health Center Programs (Community Health Centers, Migrant Health Centers, Health Care for the Homeless, Public Housing Primary Care and Healthy Schools, Healthy Communities) receiving support under Section 330 of the PHS Act; Family planning agencies under Section 1001 of the PHS Act, other than States; Comprehensive Hemophilia Diagnostic and Treatment Centers; Federally qualified health centers as described in Title XIX, Section 1905 of the Social Security Act; Nonprofit private entities that currently provide comprehensive primary care services to populations at risk of HIV disease; Local health departments; University/Medical Center affiliated clinics. Faith-based and community-based organizations are eligible to apply.

## Description

The purpose of this grant program is to support eligible entities in their efforts to strengthen their organizational infrastructure and enhance their capacity to develop, enhance or expand high quality HIV primary health care services in (1) rural or (2) urban underserved areas and (3) communities of color. The applicant must propose capacity building activities that develop, enhance, or expand a comprehensive continuum of outpatient HIV primary care services in their community through the applicant agency. Capacity building grant funds are not intended for long-term activities.

Award Ceiling:  
Award Floor:  
CFDA Number: 93.224 -- Consolidated Health Centers  
(Community Health Centers, Migrant Health  
Centers, Health Care for the Homeless, Public  
Housing Primary Care, and School Based  
Health Centers)  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Public and non-profit organizations including faith based and community based organization from one of the following categories: a health center, as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a managed care network or plan, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years; or, a health center as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a practice management network, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years Public and non-profit organizations including faith based and community based organization from one of the following categories: a health center, as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a managed care network or plan, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years; or, a health center as defined and funded under section 330 of the Public Health Service (PHS) Act (42 U.S.C. 254b), as amended, applying on behalf of a practice management network, that has received federal grants under subsection 330(e)(1)(A) for at least the two consecutive preceding years

### **Description**

To support health centers in structured planning activities that will prepare them to adopt Electronic Health Records (EHR) or other HIT innovations. Planning activities for EHR adoption may include readiness assessment, workflow analysis, due diligence in selecting vendor, business planning, determining specific network HIT functions. Planning activities for other HIT initiatives may include marketplace assessment, initial stages of collaboration with partners, and business planning. Applicants will need to describe the outcome of the grant and must demonstrate progress after the first year that will lead to completing the goal after the second year. For example, if the applicant proposes to use the funds to plan for implementation of an EHR, then at the end of 2 years, grantees will have a solid plan to adopt EHR along with indicators of success.

Current Closing Date for Applications:	Apr 30, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.
Archive Date:	May 30, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Income Security and Social Services
Category Explanation:	
Expected Number of Awards:	15
Estimated Total Program Funding:	\$23,000,000
Award Ceiling:	\$6,000,000
Award Floor:	\$0
CFDA Number:	93.583 -- Refugee and Entrant Assistance Wilson/Fish Program
Cost Sharing or Matching Requirement:	No

### Eligible Applicants

According to Section 412 (e) of the INA [Cash Assistance and Medical Assistance to Refugees], "The (ORR) Director is authorized to provide assistance, reimbursement to States, and grants to, and contracts with, public or private nonprofit agencies..." Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

### Description

The Office of Refugee Resettlement (ORR) announces that applications will be accepted from public and private non-profit organizations, including faith-based and community organizations, under a standing announcement for Wilson/Fish projects that proposes alternative approaches to providing integrated services and cash assistance to refugees. Projects will be accepted under either of two categories: (1) Projects to establish or maintain a refugee program in a State where the State is not participating in the refugee program or is withdrawing from the refugee program or a portion of the program; and (2) projects to provide an alternative to the existing system of assistance and services to refugees. Funding is available to these projects under the "Wilson/Fish" authority. This Standing announcement replaces the HHS-2004-ACF-ORR-RW-0005, which was published in the Federal Register of April 5, 2004 (69 Fed. Reg. 17692-01).

Drug Free Communities Support Mentoring Program Grant

Document Type:	Grants Notice
Funding Opportunity Number:	SP-08-003
Opportunity Category:	Discretionary
Posted Date:	Feb 14, 2008
Creation Date:	Feb 14, 2008
Original Closing Date for Applications:	Apr 18, 2008
Current Closing Date for Applications:	Apr 18, 2008
Archive Date:	May 18, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	15
Estimated Total Program Funding:	\$1,200,000
Award Ceiling:	\$75,000
Award Floor:	\$0
CFDA Number:	93.276 -- Drug-Free Communities Support Program Grants
Cost Sharing or Matching Requirement:	Yes

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)

### **Additional Information on Eligibility:**

All coalitions applying for a DFC Mentoring grant must meet the following eligibility criteria or the application will not be considered for funding. (We will consider the information provided in the sections of the application identified below in order to determine whether or not an individual applicant meets the eligibility criteria). DFC MENTORING GRANT ELIGIBILITY REQUIREMENTS HOW AND WHERE TO DOCUMENT 1. The coalition must be a legally eligible entity. The coalition must be an organization legally eligible to apply for a grant or must make arrangements with an organization that will apply for the grant on behalf of the coalition and serve as the legal and fiscal agent for the grant. That is, a single organization (i.e., the coalition or its fiscal agent) must be the legal applicant, the recipient of the award, and the entity legally responsible for satisfying the grant requirements. Legal/fiscal agents acting on behalf of a coalition may be domestic public or private non-profit entities, such as State, local, or tribal governments; public or private universities and colleges; professional associations; voluntary organizations, self-help groups; consumer and provider services-oriented constituency groups; community and faith-based organizations; and tribal organizations. 1 How: A coalition serving as its own Fiscal Agent should simply state they are a legally eligible entity. If a coalition is NOT acting as its own Fiscal Agent, the applicant must include a completed Memorandum of Understanding (MOU) between the coalition and the Fiscal Agent. \*see Sample MOU-Coalition & Fiscal Agent (Attachment 7). \* for further information and guidance on the use of a Fiscal Agent, see Attachment 6. Where: Part V, Section G, Documentation for Eligibility Requirements. 2. The mentor coalition must be in receipt of a "regular" DFC grant during the period of the mentoring relationship. (In order to qualify for a DFC Mentoring grant, you must have a continuation award through the "regular" DFC grant process or, if you are a coalition applying for a new "regular" DFC grant, you can be considered only if you receive the "regular" DFC award.) 2. In Section I of "Supporting Documentation", applicants must provide the date the mentor coalition first received a "regular" DFC grant. Applicants also must identify how many years of "regular" DFC funding the mentor coalition has received. 3. The mentor coalition must have achieved, through its own efforts, measurable results in the prevention of substance abuse among youth. 3. In Section C of the Project Narrative. 4. The mentor coalition must have at least one staff person, volunteer or member willing to serve as a mentor to the mentee coalition in the prevention of substance abuse. 4. In Section E of the Project Narrative, applicants must provide both a list of individuals from the mentor coalition (staff/members/volunteers) who will participate in the mentoring project and a description of the role of each individual. 5. The mentor coalition must propose to serve as a mentor to a coalition or coalitions that: a) are not in receipt of a "regular" DFC award during the period of the mentoring relationship AND, b) have never before received a "regular" DFC grant award. 5. In Section I, applicants must disclose whether the mentee coalition has submitted an application for a "regular" FY 2008 DFC award. 6. The mentor coalition must demonstrate that there is a willingness on the part of the mentee coalition and its

target community to actively participate in the mentee process. 6. In Section J of "Supporting Documentation" applicants are asked to submit Memoranda of Understanding between the mentor coalition and mentee coalition and/or community.

## **Description**

The Executive Office of the President, Office of National Drug Control Policy (ONDCP), and the Department of Health and Human Services (HHS), Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP) announce the availability of funds for new FY 2008 Drug Free Communities Mentoring Program (DFC Mentoring) grants. The purpose of the DFC Mentoring Program is to provide grant funds to existing DFC grantees so that they may serve as mentors to newly-formed and/or developing coalitions that have never received a DFC grant. Through the support of DFC mentoring funds, mentor coalitions are expected to share their expertise with non-grantee coalitions (mentees) and enable them to successfully compete for a "regular" DFC grant. DFC Mentoring grants are designed to support the overall goals of the Drug Free Communities Program, a collaborative initiative led by ONDCP in partnership with SAMHSA. The DFC Program has two primary goals: Establish and strengthen collaboration among communities, private nonprofit agencies, and Federal, State, local and tribal governments to support the efforts of community coalitions to prevent and reduce substance abuse among youth. Reduce substance abuse among youth and, over time, among adults by addressing the factors in a community that increase the risk of substance abuse and promoting the factors that minimize the risk of substance abuse. (Substances include, but are not limited to, narcotics, depressants, stimulants, hallucinogens, cannabis, inhalants, alcohol and tobacco, where their use is prohibited by Federal, State, or local law.) Note: DFC projects must focus on multiple drugs of abuse. When the term "drug" or "substance" is used in this funding announcement, it is intended to include all of the above drugs. The Drug-Free Communities Program (DFC) was created by the Drug Free Communities Act, 1997 (Public Law 105-20). DFC Mentoring grants were established as a component of the DFC Program when the DFC Program was reauthorized on December 14, 2001, through P.L. 107-82, 115 Stat. 814 (2001). Congress again demonstrated its support for the DFC Mentoring effort when the DFC Program and the DFC Mentoring Program were reauthorized in December of 2006. The coalitions that have been awarded DFC Mentoring grants represent a cross-section of communities from every region in the nation. In FY 2007, ONDCP awarded 19 new DFC mentoring grants and 15 mentoring continuation grants. More information on DFC and DFC Mentoring grants can be found on the DFC Web site ( [www.ondcp.gov/dfc](http://www.ondcp.gov/dfc) ).

Department of Health and Human Services  
Centers for Disease Control and Prevention Outcome Monitoring of the SISTA (Sisters Informing Sisters about Topics on AIDS) Project to Prevent HIV Infection Delivered by Community Based Organizations Funded to Conduct HIV Prevention through CDC PA 04064 Modification 2

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	CDC-RFA-PS08-804
Opportunity Category:	Discretionary
Posted Date:	Feb 13, 2008
Creation Date:	Feb 15, 2008
Original Closing Date for Applications:	Apr 16, 2008 Applications must be received by 5:00 p.m. on the application deadline date.
Current Closing Date for Applications:	Mar 31, 2008 Applications must be received by 5:00 p.m. on the application deadline date.
Archive Date:	Apr 30, 2008
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	9
Estimated Total Program Funding:	\$900,000
Award Ceiling:	\$125,000
Award Floor:	\$75,000
CFDA Number:	93.118 -- Acquired Immunodeficiency Syndrome (AIDS) Activity
Cost Sharing or Matching Requirement:	No

### Eligible Applicants

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

### Additional Information on Eligibility:

Community-based organizations funded under CDC Program Announcement 04064 not currently receiving supplemental funding are eligible to apply for this opportunity. See full funding opportunity announcement for details.

## Description

Secretary's Forecast Summary CDC-RFA-PS08-804 CDC's Procurement and Grants Office has published a program announcement entitled, "Outcome Monitoring of the SISTA (Sisters Informing Sisters about Topics on AIDS) Project to Prevent HIV Infection Delivered by Community Based Organizations Funded to Conduct HIV Prevention through CDC Program Announcement 04064." Approximately \$900,000 will be available in fiscal year 2008 to fund approximately 9 awards to community-based organizations funded under CDC PA 04064 that are not currently receiving supplements. The purpose of the program is to develop and implement HIV prevention programs. For complete program details, please see the full announcement on the CDC website at <http://www.cdc.gov/od/pgo/funding/FOAs.htm>. The estimated funding date is prior to June 1, 2008.

Department of Health and Human Services  
Substance Abuse & Mental Health Services Administration  
Grants to Expand Substance Abuse Treatment Capacity in Targeted Areas of Need  
Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	TI-08-005
Opportunity Category:	Discretionary
Posted Date:	Feb 14, 2008
Creation Date:	Feb 15, 2008
Original Closing Date for Applications:	Apr 18, 2008
Current Closing Date for Applications:	Apr 18, 2008
Archive Date:	May 18, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	14
Estimated Total Program Funding:	\$7,000,000
Award Ceiling:	\$400,000
Award Floor:	\$0
CFDA Number:	93.243 -- Substance Abuse and Mental Health Services Projects of Regional and National Significance
Cost Sharing or Matching Requirement:	No

## **Eligible Applicants**

Eligibility for Category 1 (AI/AN/AA/PI) is restricted to federally recognized Tribes, State recognized Tribes, urban Indian organizations, tribal organizations, and Asian American/Pacific Islander organizations, including Native Hawaiian organizations, in recognition of their responsibility for, and interest in, providing for the needs of their citizens, and because the success of the program will depend upon their authority and ability to broadly coordinate a variety of resources. (See Appendix L- Glossary). Eligible applicants for Category 2 (Local ROSC) are domestic public and private nonprofit entities. For example, State and local governments, federally recognized American Indian/Alaska Native Tribes and tribal organizations, urban Indian organizations, public or private universities and colleges; and community, faith-based and recovery community organizations may apply. Tribal organization means the recognized body of any AI/AN Tribe; any legally established organization of American Indians/Alaska Natives which is controlled, sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of American Indians/Alaska Natives in all phases of its activities. Consortia of tribal organizations are eligible to apply, but each participating entity must indicate its approval. The statutory authority for this program prohibits grants to for-profit agencies. Funding is not designed to meet Statewide treatment needs, but to meet the needs of individual communities in cities, towns, counties, and multi-county partnerships. Therefore, States that apply must identify a specific city, town, county or multi-county partnership that will be the targeted geographic area of need.

## **Description**

The Substance Abuse and Mental Health Services Administration, Center for Substance Abuse Treatment is accepting applications for fiscal year (FY) 2008 Targeted Capacity Expansion grants. This program is designed to address gaps in treatment capacity by supporting rapid and strategic responses to demands for substance abuse (including alcohol and drug) treatment services in communities with serious, emerging drug problems as well as communities with innovative solutions to unmet needs. The purpose of this program is to expand and or/enhance the community's ability to provide a comprehensive, integrated, and community-based response to a targeted, well-documented substance abuse treatment capacity problem and/or improve the quality and intensity of services. The Targeted Capacity Expansion (TCE) grant program is one of SAMHSA's services grant programs. SAMHSA's services grants are designed to address gaps in substance abuse services and/or to increase the ability of States, localities, Tribes, urban Indian centers and/or tribal organizations to help specific populations or geographic areas with serious, emerging substance abuse problems. For example, a community might seek a Targeted Capacity Expansion grant to add state-of-the-art treatment approaches or new services to address emerging trends or unmet needs (e.g., intensive case management and referral to services to address related HIV, tuberculosis, hepatitis B and C, and other primary health care needs of substance abusing clients) and other co-occurring issues such as gambling. An applicant may also propose to sustain recovery

efforts by offering a comprehensive menu of services that include recovery support services. SAMHSA/CSAT intends to fund projects for treatment services in two categories in FY 2008: Category 1- American Indian/Alaska Native and Asian American/Pacific Islander Populations To meet the disproportionate substance abuse treatment needs of smaller native communities, this category specifically identifies American Indian/Alaska Natives (AI/AN) and Asian American/Pacific Islanders (AA/PI), including Native Hawaiians, as native populations to receive expanded and/or enhanced treatment services under this program. According to the 2006 National Household Survey on Drug Use and Health, among persons aged 12 or older, the highest rate of current illicit drug use was among American Indians or Alaska Natives (13.7 percent). Furthermore, among youths aged 12 to 17 in 2006, the rate of current illicit drug use among American Indians or Alaska Natives was about twice the overall rate among youths (18.7 percent vs. 9.8 percent, respectively). Through the TCE program, SAMHSA seeks to strengthen outreach to tribal organizations and increase participation in the TCE program. Category 2- Local Recovery-Oriented Systems of Care To develop responses at the local level that will enhance substance use disorders services and promote recovery, this category focuses on providing support for local organizations (e.g., grassroots, faith-based, community-based and recovery community organizations) that can link services critical to the target population and that demonstrate the principles of Recovery- Oriented Systems of Care (ROSCs). For more information on Recovery-Oriented Systems of Care, see Appendix I of the RFA. SAMHSA intends that its services grants result in the delivery of services as soon as possible after award. Service delivery should begin by the 4th month of the project at the latest. Applicants for the AI/AN/AA/PI category may negotiate the service delivery start date with their TCE project officer. TCE grants are authorized under Section 509 of the Public Health Service Act, as amended. This announcement addresses Healthy People 2010 focus area 26 (Substance Abuse).

National Institutes of Health  
Methods for Prevention Packages Program (MP3) (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-AI-08-019
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	Jul 15, 2008
Current Closing Date for Applications:	Jul 15, 2008
Archive Date:	Aug 15, 2008

Funding Instrument Type: Grant  
Category of Funding Activity: Health  
Category Explanation:  
Expected Number of Awards:  
Estimated Total Program Funding: \$4,500,000  
Award Ceiling:  
Award Floor:  
CFDA Number: 93.242 -- Mental Health Research Grants  
CFDA Number: 93.855 -- Allergy, Immunology and Transplantation Research  
CFDA Number: 93.856 -- Microbiology and Infectious Diseases Research  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Small businesses  
For profit organizations other than small businesses  
County governments  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Native American tribal organizations (other than Federally recognized tribal governments)  
City or township governments  
Native American tribal governments (Federally recognized)  
Public housing authorities/Indian housing authorities  
Private institutions of higher education  
Special district governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Public and State controlled institutions of higher education  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
State governments  
Independent school districts  
Faith-based or community-based organizations can apply.

### **Description**

Purpose. The National Institute of Allergy and Infectious Diseases and the National Institute of Mental Health invite applications for multidisciplinary research programs that (1) devise optimal HIV prevention packages (combination interventions) for specific populations, (2) design clinical studies to rigorously examine the safety and efficacy of these packages in the target population, and (3) perform pilot studies to demonstrate that the proposed prevention package is acceptable to the target population and the study design is appropriate and feasible. -Mechanism of Support. This FOA will utilize the NIH Research Project

Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. The NIAID intends to award up to \$4 million in FY 2009 to fund 4-6 applications submitted in response to this FOA. NIMH is also providing \$500,000 in support of this FOA. Applicants may request a project period of up to four years and a budget of up to \$600,000 in direct costs in each year, plus applicable facilities and administrative costs. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

### National Institutes of Health Molecular Phenotypes for Lung Diseases (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-HL-08-006
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	May 05, 2008
Current Closing Date for Applications:	May 05, 2008
Archive Date:	Jun 05, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$16,000,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.838 -- Lung Diseases Research
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
State governments  
Native American tribal organizations (other than Federally recognized tribal governments)  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Private institutions of higher education  
City or township governments  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Small businesses  
Special district governments  
Public and State controlled institutions of higher education  
County governments  
Native American tribal governments (Federally recognized)  
For profit organizations other than small businesses  
Public housing authorities/Indian housing authorities  
Independent school districts  
Faith-based or community-based organizations can apply.

## Description

-Purpose. The National Heart, Lung, and Blood Institute (NHLBI) solicits grant applications under this Funding Opportunity Announcement (FOA) to stimulate research that will define or subcategorize human lung diseases at a molecular level enabling early diagnosis, prognosis, and personalized treatment of these diseases. The measurement of whole-genome gene expression at the RNA level will be the primary approach to systematically collect molecular phenotyping data for common and rare lung diseases. In addition, this FOA encourages the integration of data from other omics approaches (e.g., genomics, epigenomics, etc.) to reinforce or validate findings from RNA expression. The data generated from this program will be made available to the broad scientific community. - Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. Contingent upon the availability of funds and the receipt of a sufficient number of meritorious applications, the total amount of \$16 million will be used to fund up to 6 awards of 4 years duration.

National Institutes of Health  
Small Grants for Lung Tissue Research (R03)

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-HL-08-008
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	Oct 17, 2008

Current Closing Date for Applications: Oct 17, 2008  
Archive Date: Nov 17, 2008  
Funding Instrument Type: Grant  
Category of Funding Activity: Health  
Category Explanation:  
Expected Number of Awards:  
Estimated Total Program Funding: \$2,000,000  
Award Ceiling:  
Award Floor:  
CFDA Number: 93.838 -- Lung Diseases Research  
Cost Sharing or Matching Requirement: No

### **Eligible Applicants**

Others (see text field entitled "Additional Information on Eligibility" for clarification)  
County governments  
Independent school districts  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
For profit organizations other than small businesses  
Native American tribal organizations (other than Federally recognized tribal governments)  
Small businesses  
Private institutions of higher education  
Public and State controlled institutions of higher education  
City or township governments  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Public housing authorities/Indian housing authorities  
Native American tribal governments (Federally recognized)  
Special district governments  
State governments

### **Additional Information on Eligibility:**

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply.

### **Description**

-Purpose. This funding opportunity announcement (FOA) solicits research grant applications from applicant organizations that propose to conduct tissue-based research on interstitial fibrotic lung disease and/or COPD (chronic obstructive pulmonary disease). Supported projects will be required to utilize lung

biospecimens and data collected by the Lung Tissue Research Consortium (LTRC). The goal of this initiative is to promote tissue-based research on COPD and interstitial fibrotic lung conditions, including studies to establish proof-of-concept in humans for novel mechanisms of pathogenesis. -Mechanism of Support. This FOA will utilize the NIH Small Grant (R03) award mechanism. - Funds Available and Anticipated Number of Awards. The NHLBI intends to commit approximately \$1 million in FY 2008 to fund approximately 12 new grants and \$1 million in FY 2009 to fund approximately 12 additional grants. Awards issued under this FOA are contingent upon the availability of funds, the submission of a sufficient number of meritorious applications, and the availability of adequate biospecimens and data from the LTRC.

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education  
Others (see text field entitled "Additional Information on Eligibility" for clarification)  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
Private institutions of higher education

## Description

Purpose. The Centers of Excellence in Genomic Sciences (CEGS) program establishes academic Centers for advanced genome research. Each CEGS grant supports a multi-investigator, interdisciplinary team to develop innovative genomic approaches to address a particular biological problem. A CEGS project will address a critical issue in genomic science, proposing a solution that would be a very substantial advance. Thus, the research conducted at these Centers will entail substantial risk, balanced by outstanding scientific and management plans and very high potential payoff. A CEGS will focus on the development of novel technological or computational methods for the production or analysis of comprehensive data sets, or on a particular genome-scale biological problem, or on other ways to develop and use genomic approaches for understanding biological systems. Exploiting its outstanding scientific plan and team, each CEGS will nurture genomic science at its institution by facilitating the interaction of investigators from different disciplines, and by providing training of new investigators will expand the pool of professional genomics scientists and engineers. -Mechanism of Support. This FOA will utilize the P50 Specialized Center grant mechanism.

CFDA Number:	93.394 -- Cancer Detection and Diagnosis Research
CFDA Number:	93.395 -- Cancer Treatment Research
CFDA Number:	93.396 -- Cancer Biology Research
CFDA Number:	93.399 -- Cancer Control
Cost Sharing or Matching Requirement:	No

### Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

- State governments
- Small businesses
- Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
- Private institutions of higher education
- Public and State controlled institutions of higher education
- For profit organizations other than small businesses
- Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

### Description

-Purpose The objective of this Funding Opportunity Announcement (FOA) is to stimulate research in the area of tumor stem cell biology including characterization of tumor stem cell markers, and to identify of specific genetic and functional signatures of tumor stem cells. The goal is the translation of basic research findings into clinical practice in the context of both hematological and solid tumor malignancies. Therefore, applications submitted in response to this FOA must involve appropriate and substantive collaborative arrangements between basic and translational researchers providing, respectively, expertise in the biology of tumor stem cells and in translation of basic research findings into clinical practice. To facilitate substantive collaborations, applicants are encouraged to take advantage of the multiple Principal Investigators option. - Mechanism of Support. This FOA will utilize the NIH research project R01 grant mechanism. Another FOA of identical scientific scope but using the NIH Program

Project (P01) mechanism will be released in the near future as RFA-CA-08-020. - Funds Available and Anticipated Number of Awards. A total of approximately \$2.7M annually is available over 5 years. The NCI expects to fund an estimated five to six awards.

## Description

-Purpose. The National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) invites applications for Silvio O. Conte Digestive Diseases Research Core Centers (DDRCCs). The DDRCCs are part of an integrated program of digestive and liver diseases research support provided by the NIDDK. - Mechanism of Support. This FOA will utilize the Center Core Grant (P30) grant mechanism -Funds Available and Anticipated Number of Awards. A total of approximately \$3,600,000 in FY 2009 will be committed to fund three new or competing renewal applications in response to this RFA. Three existing DDRCCs are expected to submit competing renewal applications. A total of approximately \$4,800,000 in FY 2010 will be committed to fund four new or competing renewal applications. Four existing DDRCCs are expected to submit competing renewal applications.

Small businesses  
Special district governments  
For profit organizations other than small businesses  
Faith-based or community-based organizations can apply

### Description

-Purpose. To support development of vaccines, vaccine technologies, therapeutics, immunotherapeutics, adjuvants and medical diagnostics for NIAID Category A, B, and C priority pathogens and toxins (<http://www.niaid.nih.gov/biodefense/PDF/cat.pdf>). -Mechanism of Support. This RFA will utilize the U01 cooperative agreement grant mechanism. -Funds Available and Anticipated Number of Awards. \$26 million available to support 15-20 awards. Awards issued under this RFA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary.

Expected Number of Awards:	8
Estimated Total Program Funding:	\$320,000
Award Ceiling:	\$0
Award Floor:	\$0
CFDA Number:	93.184 -- Disabilities Prevention
Cost Sharing or Matching Requirement:	No

## Eligible Applicants

1. Eligible Applicants 1.A. Eligible Institutions You may submit an application if your organization has any of the following characteristics: • Public nonprofit organizations • Private nonprofit organizations • For profit organizations • Small, minority, and women-owned businesses • Universities • Colleges • Research institutions • Hospitals • Community-based organizations • Faith-based organizations • Federally recognized or state-recognized American Indian/Alaska Native tribal governments • American Indian/Alaska Native tribally designated organizations • Alaska Native health corporations • Urban Indian health organizations • Tribal epidemiology centers • State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau) • Political subdivisions of States (in consultation with States) A Bona Fide Agent is an agency/organization identified by the state as eligible to submit an application under the state eligibility in lieu of a state application. If you are applying as a bona fide agent of a state or local government, you must provide a letter from the state or local government as documentation of your status. Attach this documentation behind the first page of your application form or for electronic applications, use a PDF file and attach as "Other Documents" and label as appropriate.

## Description

This FOA will support spina bifida clinics in the United States to test the feasibility of utilizing a standardized registry tool for collecting data on patients with spina bifida. The initial collection and entry of patient data into a central data repository constitutes an essential step in the development of a national spina bifida registry. It is anticipated that the establishment of a national Spina Bifida Patient Registry will result in improved quality of care for patients with spina bifida and identify areas for future research.

Attach this documentation behind the first page of your application form or for electronic applications, use a PDF file and attach as "Other Documents" and label as appropriate.

## Description

The intent of this FOA is to build upon PA02172 and RFA-DD-06-002. NCBDDD plans to use FY08 funds to add two additional sites or contiguous geographic areas to the MD STARnet system in order to more adequately approximate the national racial and ethnic demographic profile. Specifically, Black/African Americans and Asian American/Pacific Islanders are under-represented in the current study population.

Administration for Children and Families Standing Announcement for Unaccompanied Alien Children Grant

Document Type:	Grants Notice
Funding Opportunity Number:	HHS-2008-ACF-ORR-ZU-0119
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted

electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.

Current Closing Date for Applications: Mar 24, 2008 See link to full announcement for details. IMPORTANT NOTE: Applications submitted electronically via Grants.gov must be submitted no later than 4:30 p.m., eastern time, on the due date referenced above.

Archive Date: Apr 23, 2008

Funding Instrument Type: Cooperative Agreement

Category of Funding Activity: Income Security and Social Services

Category Explanation:

Expected Number of Awards: 8

Estimated Total Program Funding: \$35,000,000

Award Ceiling: \$30,000,000

Award Floor: \$500,000

CFDA Number: 93.676 -- Unaccompanied Alien Children Program

Cost Sharing or Matching Requirement: No

## Eligible Applicants

Eligibility is open to all types of domestic applicants other than individuals. Non-profit organizations (including faith-based and community organizations) and for-profit organizations are eligible to apply. Organizations must be appropriately licensed (at the time of submission of the application) as facilities for the provision of shelter care and other related services to dependent children. For-profit organizations must clearly demonstrate that they are only charging the program actual costs incurred. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

## Description

One of the functions of the Office of Refugee Resettlement (ORR) Division of Unaccompanied Children's Services (DUCS) is to provide temporary shelter care and other related services to children in ORR custody. Shelter care services will be provided for the period beginning when DUCS accepts the child for placement and custody and ending when the child is released from custody, a final disposition of the child's immigration case results in removal of the child from the United States, or the child turns 18 years of age. Shelter care and other child welfare related services in a State-licensed residential shelter care program will be provided in the least restrictive setting appropriate to the Unaccompanied Alien Children's (UAC) age and special needs. While the majority of UAC remain in care for an average of 55 days, some will stay for shorter or longer periods of

time. This announcement provides the opportunity to fund providers for basic shelter and/or group homes, staff secure, secure and more specialized types of care. There are two priority areas for funding and applicants can apply to both priority areas under separate applications.

### National Institutes of Health Comparative Systems Genetics of Cancer (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-CA-08-017
Opportunity Category:	Discretionary
Posted Date:	Feb 21, 2008
Creation Date:	Feb 21, 2008
Original Closing Date for Applications:	May 14, 2008
Current Closing Date for Applications:	May 14, 2008
Archive Date:	Jun 14, 2008
Funding Instrument Type:	Grant
Category of Funding Activity:	Education Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$15,000,000
Award Ceiling:	
Award Floor:	
CFDA Number:	93.393 -- Cancer Cause and Prevention Research
CFDA Number:	93.394 -- Cancer Detection and Diagnosis Research
CFDA Number:	93.395 -- Cancer Treatment Research
CFDA Number:	93.396 -- Cancer Biology Research
CFDA Number:	93.399 -- Cancer Control
Cost Sharing or Matching Requirement:	No

### **Eligible Applicants**

Small businesses  
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Private institutions of higher education  
Public and State controlled institutions of higher education  
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education  
State governments  
For profit organizations other than small businesses  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

## **Description**

**Purpose.** This NCI-sponsored Funding Opportunity Announcement (FOA) solicits grant applications for research projects focused on the development and application of comparative (cross-species) systems genetics approaches to address key cancer-relevant problems. The NCI requests applications for research projects that will use these approaches to enhance the understanding of the mechanisms that underlie: (i) human cancer susceptibility and (ii) heterogeneity of human tumors. The NCI expects that, to meet these goals, the proposed projects will involve appropriate interdisciplinary collaborations providing expertise in such areas as human genetics, statistical genetics, model organism genetics, systems biology, mathematical or computational modeling of biological processes, and computer sciences. The NCI requires that all projects propose to use two species, one of which must be human, and that the projects adhere to the cancer Biomedical Informatics Grid (caBIG ) standards. -  
**Mechanism of Support.** This FOA will utilize the NIH Research Project (R01) grant mechanism. -  
**Funds Available and Anticipated Number of Awards.** The NCI intends to commit approximately \$3 million per year for up to five years to fund four to six individual multi-disciplinary research programs.
